Public Notice

Q&A

What makes newspapers the best source for public notice?

Newspapers are independent, credible, and can guarantee readability. Newspaper readers pay attention to what's going on in the community.

Newspapers are read both in print and online. So are the public notices as public. And when they're published, so are the facts. Forever.

Since 1936, Texas has relied on their newspapers to provide public notices. They still do... for lots of good reasons.

Who benefits from public notice?

The state. Public notices are required because a government body or cooperative wants to do something you need to know about.
