To whom it may concern,

Docket Number 50617 Order Number 2

I received this fax after filing for two of our Class D Water Systems Rate Increase Applications. In the last sentence of the last paragraph it requests I add Timberlane's connections to the rate applications. There are 44 Active Connections at Timberlane. However, we have a pending STM to merge Timberlane into our current CCN (13259). Timberlane currently has its own CCN (12336) and therefore, I did not calculate them into the total. If you wish for me to include these connections to the rate application, it would bring the total active connections from 130 to 174.

Thank you,

Lauren Monk
