Stonegate Subdivision Water System

Memorandum

To: Public Utility Commission of Texas
From: Derek Wolf
CC: Mike Felps

Per the request of Project No. 50664, this memorandum serves as the response to actions taken to mitigate the impact of COVID-19 on the end users of the public water drinking supply provided by Stonegate Water System to its customers in the Subdivision of Stonegate in Johnson City, TX.

The system has only one operator who has shown no symptoms of COVID-19. Due to the limited person to person contact, the System believes that this is adequate to mitigate the spread of the virus. Additionally, the system is equipped with backflow devices on each home to prevent contaminated water from re-entering the system and being spread across the service area.

Regards,

Derek Wolf
