Re: Tariff Control No. 50667 - Application of Texas
Telephone Association for Administrative Approval of
Access Service Tariff

Dear Sir or Madam:

On behalf of the Texas Telephone Association ("TTA") I am submitting the attached revised tariff pages to correct typographical errors in the original tariff pages submitted in the above-reference proceeding. TTA respectfully requests that the attached revised pages replace those originally submitted on March 16, 2020. The attached revisions do not make any substantive changes to the originally-filed pages.

Thank you for your time and prompt attention to this matter. Please do not hesitate to contact our office if you have any questions.

Respectfully submitted,

Naman, Howell, Smith & Lee, PLLC

ACCESS SERVICE

2. General Regulations (Cont'd)2.4 Payment Arrangements and Credit Allowances (Cont'd)2.4.2 Minimum Periods (Cont'd)

- (B) When a service with a minimum period greater than one month is discontinued prior to the expiration of the minimum period, the applicable charge will be the lesser of (1) the Telephone Company's total nonrecoverable costs less the net salvage value for the discontinued service or (2) the total monthly charges, at the rate level in effect at the time service is discontinued, for the remainder of the minimum period.

2.4.3 Cancellation of an Order for Service

Provisions for the cancellation of an order for service are set forth in other applicable sections of this tariff.

2.4.4 Credit Allowance for Service Interruptions(A) General

Service is considered to be interrupted when it becomes unusable to the customer because of a failure of a facility component used to furnish service under this tariff or protective controls result in the complete loss of service by the customer. An interruption period starts when an inoperative service is reported to the Telephone Company and ends when the service is operative.

The credit allowance for an interruption or for a series of interruptions shall not exceed:

- the applicable monthly rate, or
- the assumed minutes of use charge.

For calculating credit allowances, every month is considered to have 30 days. When a service includes more than one communications path, the interruption allowance applies to the path interrupted. A refund may be accomplished by a credit on a subsequent bill for service.
