RE: Docket No. 50702: Application of Double Diamond Properties Construction Co. for a Pass-Through Rate Change

Double Diamond Properties Construction Co. ("DDPC") files this supplemental information to cure deficiencies detailed in Staff's filing dated April 9, 2020. The Notice Finding the Application Incomplete and Deficient dated April 13, 2020 required DDPC to file supplemental information on or before May 7, 2020. This filing is therefore timely.

1. The contract between Double Diamond and Northwest Grayson WCID for Purchased Water was not provided.

The requested contract was filed in the Docket on April 8, 2020, and is included as Item No. 4 on the PUC's Interchange within this Docket.

2. The notice does not include a calculation for \$0.66 per 1,000 gallons volumetric charge, as provided by the tariff formula.

An amended notice inclusive of the requested information is included as Pages 9 and 10 in the revised filing package. Please be aware that this notice indicates a lower amount associated with the pass-through charge which is explained further in Item No. 5 below. As previously noted, due to the on-going restrictions associated with COVID-19, it is anticipated this notice will be delivered to customers at the first of May, and DDPC will provide notice of delivery once complete.

3. The tariff pages in the application do not reflect the most recently approved tariff pages in Docket No. 48523 related to meter charge pass-through approval

The attached revised filing package includes the corrected tariff pages. See Pages 6 through 8.

4. An annual true-up meter fee approved in Docket No. 48523 was not provided.

Please see Page 33 of the attached filing package. While DDPC was authorized to charge the pass-through fee, it was never implemented and charged to customers. As such, no pass through fee revenues were collected in 2019.

In addition to the above information, PUC staff had requested the following information during a prior teleconference.

5. Please explain the higher level of water loss that occurred in 2019.

In late 2018, a new Chlorine Contact Tank and Sand Filter System were installed at the Rock Creek Well Site. To maintain the new Sand Filter System, the three filters must be backwashed on a daily basis. In 2019, a total of 4,106,250 gallons of water were used to back-wash the filter system. Once this water is taken into account, the level of water loss is more in alignment with historical values. To reflect this reduced level of water loss, the attached filing package has been amended to reflect the lower 6.8% water loss value which leads to a lower pass-through rate.

6. Please clarify DDPC's requested level of recovery for prior-year costs within the fixed charge within the application.

Within the application, DDPC is only requesting recovery for prior year costs equal to \$10,280.65 which is equal to the amount charged for the volumes paid for but not taken from NW Grayson County WCID No. 1 in accordance with the current contract. This amount is divided into 12 equal monthly installments of approximately \$856.72 and combined with the monthly base charge from the WCID of \$128.50 for total monthly recovery of \$985.22 divided by the number of meter equivalents.

We appreciate your attention to this matter.

IMPORTANT CHANGES TO YOUR BILL

Dear Valued Customer:

Double Diamond Properties Construction (DDPC) has entered into a Wholesale Water Supply Agreement with Northwest Grayson County Water Control and Improvement District No. 1. As a result of this contract, and in accordance with our tariff approved by the Public Utility Commission, DDPC will be implementing a pass-through charge on your bill effective on the first meter reading after June 1, 2020 or upon approval of the Public Utility Commission. We are only passing through the cost incurred by us.

The pass-through charge will consist of a volumetric charge of \$0.61/1,000 gallons and a monthly charge, which will be \$985.22/ number of meter equivalents at the beginning of the monthly billing cycle. There are currently 137 meter equivalents, and therefore the meter charge would be \$7.19 (\$985.22/137).

The rates (current and with the pass-through adjustment) are as shown below.

	Current	Pass-Through Adjustment	With Pass-Through Adjustment
Meter Size Charge			
5/8" or 3/4"	\$30.00	\$7.19	\$37.19
1"	\$75.00	\$17.98	\$92.98
1 ½"	\$150.00	\$35.95	\$185.95
2"	\$240.00	\$57.52	\$297.52
3"	\$450.00	\$107.85	\$557.85
Gallonge Charge (Per 1,000 Gallons)			
0 – 2,000 gallons	\$3.63	\$0.61	\$4.24
2,001 – 10,000 gallons	\$3.91	\$0.61	\$4.52
10,000+ gallons	\$4.91	\$0.61	\$5.52

This tariff change is being implemented in accordance with the minor tariff changes allowed by 16 Texas Administrative Code §24.25. The cost to you as a result of this change will not exceed the costs charged to your utility.
