General Information and Instructions

General Information

Any water or sewer utility that wishes to discontinue operations must first receive approval from the Public Utility Commission of Texas (PUC or commission). If the applicant has a Certificate of Convenience and Necessity (CCN) which it has been operating under, cancellation of that CCN is also necessary.

The filing of this application does not constitute approval to discontinue operations. The applicant must continue providing service at its current rates until the date of cessation approved by the commission. If the utility does not have a CCN and this application is withdrawn or denied, the utility must immediately submit an application for a CCN.

During the pendency of this application, the applicant is advised to attempt to find a willing buyer for the utility or another service provider in the area willing to operate the system and/or provide service to the area involved.

You must answer each question on the application completely. If you need additional space you may attach additional sheets clearly labeled with the applicant's name. If a question is not applicable, please mark it N/A and briefly explain why the question does not apply.

NOT LEAVE ANY QUESTIONS BLANK.

A copy of the existing CCN map may be obtained from the CCN holder's official file. The commission's Central Records Office maybe contacted by phone at 512-936-7180.
3. The proposed notice for publication, the individual notice to cities and neighboring systems, and notice to current customers. (Do not publish or send these proposed notices to neighboring utilities or customers until you are notified to do so in writing by the TCEQ staff after the proposed notices have been reviewed for completeness). Processing of Petition to Discontinue Service

Your petition to discontinue service will be reviewed for completeness by the commission staff within ten (10) working days after it is received in our offices. An application is not accepted for filing until it is determined to be complete. If the application is complete, you will be notified by mail to provide a copy of the individual notice to current customers, neighboring cities and systems within two (2) miles of your service area and you may also be told to publish notice once each week for two (2) consecutive weeks in a newspaper of general circulation in your local area and county.

If the application is incomplete, you will be sent a letter describing what is needed to correct the deficiencies. After receiving that letter, you will have thirty (30) days to make the necessary corrections. If you fail to make the corrections, the application will be returned if you are operating a system without a CCN, you may be referred to the Enforcement Division for further action.

Notice Requirements

The commission cannot consider a petition to discontinue service until proper notice of the application has been given. **It is the applicant's responsibility to ensure that proper notice is given.** Both attached forms must be completed and submitted with the application. The commission staff will review your proposed notices for completeness before directing you to provide the appropriate notice to current customers, neighboring cities and systems and publication, if required. The commission may require the applicant to publish notice once each week for two consecutive weeks in a newspaper of general circulation in the county of operation which shall include the sale price of the facilities; the name and mailing address of the owner of the retail public utility; and the business telephone of the retail public utility.
