Water Rate Increase

Lakeline Acres

We are new owners in the area. We are there a very limited amount of time. We do not consume the water because it looks unpleasant (brownish) and has an intolerable smell at times (metallic, sulphuric). The supply definitely has issues too, it is constantly pushing air through the system. It is not a quality product at the current rate, much less with a price increase. I believe that the proposed increase is also excessive and ridiculous at any quality level, almost 3 times the current rate. I understand there is a need for increase at times. For full time residents who water their grass and use it every day or for even the people who vrbo it is still an extreme increase . For a weekender who is there 8 days a month max and comes nowhere close to the minimum usage it is outrageous.
