Docket No. 50819

Intervention of Northtown Acres request to transfer water facilities and water service area.

I move to intervene and oppose the transfer of these facilities and water service area until docket number 48819 is cleared and finalized.

The Richardson's have not seemed to care about following any rules or regulations when it comes to operating this water company. If you will review docket number 48819, this will come to light.

The last posting in that docket is where the Richardson's ignored an order to update the court on the progress being made in getting proper paperwork filed. At the present time they don't have a right to even be operating this water company. I would think enough of this would be enough. I do not understand how much defiance it takes, before something will be done about this company and its owners. I cannot operate without following the states rules for my profession. Why should they be allowed to?

Thanks
