June 30, 2020

To: Public Utility Commission of Texas
PUC Docket No. 50902 - Sharwat Quazi - Chelford City MUD
From: Mrs. Sharwat Quazi

RECEIVED
2020 JUN 30 AM 11:37
PUBLIC UTILITY COMMISSION
FILING CLERK

I was copied onto an e-mail from Chelford City Municipal Utility District's on Jun 29, 2020. The email was addressed to PUC Docket No 50902. The information provided by Chelford City Mud is incorrect and irrelevant to my complaints. I am denying their allegations. Please see my responses below.

- 1) DOCUMENTS: I am not aware of the documents or letters from their engineers. None of those were sent to the property owner, Sharwat Quazi. These are unrelated to my complaints.
- 2) NON PAYMENTS: As a property owner, I called Chelford City MUD on January 2019 to transfer the water to my name. They transferred the water service to my name and I received the first bill dated 2/15/2019. In that bill they included a \$27.00 "TRANSFER FEE." Since then I have had water in my property and paid all my water bills ON TIME (see supporting doc #1-Chelford City MUD water bills). You can clearly see that each bill shows the previous balance has been received. Without providing any disconnect notice, MUD cut off my water service and took my permanent water meter out even though I paid all the invoices fully. They sent me a Final bill dated 4/16/2020. Therefore, their statement that the meter was pulled for lack of payment is FALSE.
- 3) DRAINAGE: We paid the Harris County Flood Control impact fee (see Supporting doc #2-Harris County impact fee paid official receipt and Supporting doc #3-HCFCD reviewer David Saha PE) so water can be drained into the county drainage reservoir system, since this property size is very small. The Chelford City MUD engineer is not responsible to do inspection for drainage for this property. It is insignificant to my complaints.
- 4) SITE PERMIT & BUILDING INSPECTION: We received Site permit from Harris Country (see supporting doc #4-Harris County permits). This matter is unconnected from my complaints, as the Chelford City MUD engineer is not responsible for the site parking lot or building inspection.

NOTE: We are in compliance with the Federal, State, County, City, and municipal regulations. We have had Electricity, gas, and phone service on the property since 2014.

Conclusion – My complaint against Chelford City MUD Utility District is valid. Their engineer unlawfully took the permanent water meter from my property and disconnected the water service.

The Damaging Effects of Grease on Your Pipes

When you pour hot grease down your drain, the grease sticks to the inside of the pipe. While many people believe that running hot water down the drain can alleviate the problem, they are wrong. Eventually, the pipes and grease will cool causing the grease to stick to the pipe's surfaces. It may take awhile, but slowly and surely, grease will block up your entire pipe, leaving you with a drainage maintenance disaster on your hands. Just like the healthcare costs of fixing clogged arteries, fixing clogged drains can cost you upwards of several hundred dollars. If at all possible, try to dispose of your grease in a jar or a container. Your pipes will thank you!

Watering the Lawn

The best time to water your lawn is in the early morning when the air is cooler. This will ensure your lawn is able to benefit from the most water possible. In the afternoon, the intense heat can make the water evaporate too quickly. Watering in the evening, when the lawn doesn't have an opportunity to dry out, can cause disease.

Kids love to play in the water in the summer. If you are a household without a pool, you have probably purchased a plastic wading pool or any number of water toys that require a running hose. Take the kids to a free water feature and skip the water-consuming Water Wiggle or Slip & Slide. You'll save water - and headaches during those water bans in the heat of the summer.

Reduce Water Usage - This is not as difficult as it sounds, especially if you have children home all summer. Kids playing outside all day need to be cleaned up when they come inside. Instead of the typical bath, consider quick showers - especially for kids five and up. A standard shower head uses 2.5 gallons of water a minute (a low-flow shower head uses around 2) while a standard bath uses about 30 gallons of water. A five-minute shower will consume 10-12.5 gallons. Kids home from school also means more dishes. Try to use the dishwasher on the energy-saving setting. Hand washing consumes more water. Pre-rinsing your dishes can also waste a considerable amount of water (up to 20 gallons a load).

For more information about the district, including information about the district's board and board meetings, please go to the Comptroller's Special Purpose District Public Information Database at <https://spdpid.comptroller.texas.gov>.

With fall around the corner, we should have periods of rain that will hydrate our landscapes. If you don't have a rain sensor or soil moisture sensor, buy one right away! A sensor will prevent your irrigation system from running during and/or after rain storms.

Rain Sensor

A rain sensor is a great addition to your irrigation system. It will shut down your system during a rain event, and take the guess work out of how much you should water your lawn per week. A rain sensor, along with the right controller settings, can increase your irrigation system's efficiency and save you money every month!

Inspect bathroom fixtures for malfunctions or leaks. During the holidays, your bathrooms are likely to experience heavier than normal usage and, in turn, are more prone to issues. A faulty toilet flapper can waste as much as 200 gallons per hour!

Even your outdoor pipes are susceptible to freezing. Preventing burst pipes and leaks are key when it comes to saving water and money during the winter. Outdoor pipes, like the ones running to your backyard spigot, should be wrapped to ensure that they stay warmer than the air during the cold winter months.

TUNE UP YOUR IRRIGATION SYSTEM

Inspect irrigation systems and check for leaks and broken or clogged sprinkler heads.

Fix sprinkler heads that are broken or spraying on the sidewalk, street, or driveway.

Did you know? Just one broken sprinkler head can waste up to 25,000 gallons of water over a six-month irrigation season.

REGULATIONS OF HARRIS COUNTY, TEXAS FOR THE CONSTRUCTION
OF DRIVEWAYS AND CULVERTS ON COUNTY EASEMENTS AND RIGHTS OF WAY
DRIVEWAY/CULVERT PERMIT

STATE OF TEXAS }
COUNTY OF HARRIS }

PERMIT DATE: 10/04/05
PERMIT NUMBER: 3-0172560-0
EXPIRATION DATE: 04/02/06

This Permit is issued to FAROQUE QUAZI, is not transferable and is effective immediately. This permit authorizes the permittee to construct a driveway and/or install a culvert as defined by the application and plans submitted to the County Engineer in support of this permit. Construction must begin within six (6) months and be completed within nine (9) months from the date shown hereon. Authority for issuance of this Permit is derived from the Harris County Road Law (Section 2 of Acts 1913, 33rd Leg., ch. 17, Tex. Gen. Laws p. 64) as amended.

Harris County has not examined title to the site designated in this Permit nor has Harris County determined whether the construction described in this permit is in violation of or contrary to any deed restrictions or covenants applicable to the said site. The determination that the driveway or culvert to be constructed is not in violation of any deed restrictions or applicable covenants shall be the responsibility of the permittee.

This permit is issued for the paid installation or construction at the location shown below and to the named permittee, in consideration of permittee's representation to Commissioners' Court of Harris County, Texas, that the construction of the driveway or the installation of the culvert and driveway, when applicable, will be in strict conformity with the plans and information filed with the County Engineer as part of the permit application.

SECTION 00
SUBDIVISION - BELLAIRE CENTER I & II
15831 BELLAIRE BLVD
DRIVEWAY FOR OTHER THAN SINGLE FAMILY DWELLING
DRIVEWAY REQ.... WIDTH: 30
MATERIAL: CONCRETE

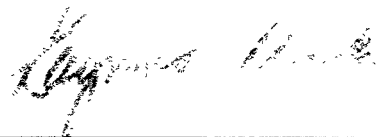

The permittee is on notice that failure to comply with the permit will result in enforcement proceedings before Commissioners' Court and for injunctive action, or both, at the discretion of Commissioners' Court. If the permittee wishes to deviate from the information on file with the County Engineer, he must file supplemental plans with the County Engineer to secure the County Engineer's approval of the change prior to beginning work.

Under the Regulations of Harris County for the Construction of Driveways and Culverts on County Easements and Rights of Way, the County Engineer or his representative will inspect the work in progress. Any work which does not comply with plans and other information, if any, on file with the application, will be corrected under penalty of having this permit suspended or revoked. NO REFUND IS ALLOWED ON EXPIRED, VOID OR CANCELED PERMITS OR ON ANY INSPECTIONS THAT MAY HAVE BEEN CONDUCTED.

The permittee is responsible for notifying the County Engineer by calling the telephone number listed below forty eight (48) hours before work is to progress and culvert installation shall not begin until after grade or reference stakes have been set and all other inspections required by the County Engineer or his representative have been made.

REPORT ALL VIOLATIONS TO COUNTY ENGINEER, AT (713) 956-3036.

REGULATIONS OF HARRIS COUNTY, TEXAS FOR FLOOD PLAIN MANAGEMENT
DEVELOPMENT PERMIT

STATE OF TEXAS }
COUNTY OF HARRIS }{

DATE: 10/04/05
PERMIT NUMBER: 1-0257507-2

This CLASS I permit is issued to FAROQUE QUAZI pursuant to Regulations of Harris County, Texas, for Flood Plain Management. This permit is not transferable and is effective immediately. Construction must be started within 180 days of the date the permit is issued or the permit shall be null and void. Upon written request, two six-month extensions may be obtained. However, if construction has not started at the time a revision occurs in the Flood Insurance Rate Map (FIRM), this permit is void and a new permit must be obtained.

Harris County has not examined title to the site designated in this Permit nor has Harris County determined whether the construction described in this Permit is in violation of or contrary to any deed restrictions or covenants applicable to said site. The determination that the work to be performed is not in violation of any deed restrictions or applicable covenants shall be the responsibility of the permittee.

This permit authorizes the permittee to develop the following described property in Harris County, Texas in strict accordance with the plans for development filed with the Application for this Permit.

SECTION 00
SUBDIVISION - BELLAIRE CENTER I & II

DATE: 10/04/05
PERMIT NUMBER: 1-0257509-6

This CLASS I permit is issued to FAROQUE QUAZI pursuant to Regulations of Harris County, Texas, for Flood Plain Management. This permit is not transferable and is effective immediately. Construction must be started within 180 days of the date the permit is issued or the permit shall be null and void. Upon written request, two six-month extensions may be obtained. However, if construction has not started at the time a revision occurs in the Flood Insurance Rate Map (FIRM), this permit is void and a new permit must be obtained.

Harris County has not examined title to the site designated in this Permit nor has Harris County determined whether the construction described in this Permit is in violation of or contrary to any deed restrictions or covenants applicable to said site. The determination that the work to be performed is not in violation of any deed restrictions or applicable covenants shall be the responsibility of the permittee.

This permit authorizes the permittee to develop the following described property in Harris County, Texas in strict accordance with the plans for development filed with the Application for this Permit.

SECTION 00
SUBDIVISION - BELLAIRE CENTER I & II
15831 BELLAIRE BLVD

PRIVATE SUBDIV PROJECT - ORGANIZED WATER/SEWER SYS

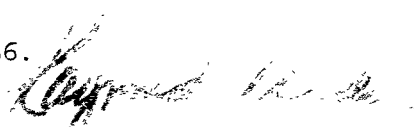

Work must not start until the permit issued herewith is posted at the building site. THE PERMITTEE MUST NOTIFY THE COUNTY ENGINEER WHENEVER WORK IS READY FOR THE INSPECTIONS REQUIRED BY THESE REGULATIONS. FAILURE TO COMPLY WITH THE REGULATIONS OF HARRIS COUNTY AND THE TERMS OF THIS PERMIT WILL RESULT IN LEGAL ACTION. Changes from the plans and specifications on file with the County Engineer must be approved by the County Engineer. The granting of this permit does not imply that the development can be insured by the Federal Flood Insurance Administration or that the development will be free from flooding.

The County Engineer may make scheduled or unscheduled inspections of the work in progress. Any work which does not comply with the plans and specifications filed with the application must be corrected or this Permit will be suspended or revoked.

THE JOBSITE COPY OF THIS PERMIT MUST BE POSTED IN A LOCATION PROTECTED FROM THE WEATHER AND SECURE FROM VANDALISM, AND KEPT POSTED UNTIL THE WORK IS COMPLETED. A SET OF APPROVED PLANS SUBMITTED WITH THE APPLICATION FOR THIS PERMIT MUST BE KEPT ON THE JOBSITE. NO REFUND IS ALLOWED ON EXPIRED, VOID OR CANCELED PERMITS, OR FOR INSPECTIONS THAT MAY HAVE BEEN CONDUCTED.

REPORT ALL VIOLATIONS TO COUNTY ENGINEER, AT (713) 956-3036.
