**MONARCH'S RESPONSE TO  
OPUC'S SECOND RFI**

- OPUC 2-1** Please reference the Rate Filing Package, Schedule II-E-2. Please explain and provide workpapers supporting the functionalization of the following normalization adjustments solely to water service:

<b>Line No</b>	<b>Account</b>	<b>Adjustment</b>
8	408.11 – Ad Valorem Taxes	\$ 6,263
11	408.10 – TCEQ Assessments	400

**RESPONSE:** Both of these amounts were functionalized entirely to water because they are both related to the normalization of the Inverness and SW Utilities systems, which were transferred to Monarch during the 2019 test year, and neither of which provide wastewater service. No workpapers are available as no functionalization was conducted.

**MONARCH'S RESPONSE TO  
OPUC'S SECOND RFI**

- OPUC 2-2** Please reference the Rate Filing Package, Schedule II-E-2. Please explain and provide workpapers supporting the functionalization of the following known and measurable adjustments solely to water service:

<b>Line No.</b>	<b>Account</b>	<b>Adjustment</b>
8	408.11 – Ad Valorem Taxes	\$ 116,636
11	408.10 – TCEQ Assessment	42,127
12	408.13 – State Gross Receipt	16,834
15	409 – Texas Margins Tax	6,472

**RESPONSE:** All of these amounts were functionalized entirely to water because they are related to the normalization of the Ni and Water Services systems, which were, or will be soon, transferred to Monarch in 2020, and neither of which provide wastewater service. No workpapers are available as no functionalization was conducted.

PUC DOCKET NO. 50944**

**MONARCH'S RESPONSE TO  
OPUC'S SECOND RFI**

**OPUC 2-3** Please reference the Rate Filing Package, Schedules II-B and II-B (W). Please reconcile the differences between the water rate base value of \$89,944,493 shown on Schedule II-B and the water rate base value of \$91,210,894 shown on Schedule II-B (W). For any identified errors, please indicate their impact, if any, on the requested water revenue requirement.

**RESPONSE:** Schedule II-B is correct, and Schedule II-B (W) is incorrect due to two inadvertent minor formula errors. These two errors do not have any effect on Monarch's requested revenue requirement because the requested revenue requirement rolls up from Schedule II-B, not Schedule II-B (W). In other words, Schedule II-B (W) is informational only and the amounts shown therein are not used for the calculation of revenue requirement.

- On Schedule II-B (W), the formula in cell f14 (column f, line 14) inadvertently excludes the (\$417,658) normalization adjustment in cell d14. This formula error was only made on Schedule II-B (W) and not on Schedule II-B.
- On Schedule II-B (W), cell c16 was inadvertently hard-coded as \$0 but should have referenced Schedule II-E-3.5 cell h17. Correcting this error would result in (\$848,743) being included in cell f16.

The reconciliation is shown below:

$$\begin{array}{r} \$91,210,894 \quad \text{total rate base per Schedule II-B (W)} \\ + (\$417,658) \\ \hline + (\$848,743) \\ \$89,944,493 \quad \text{total rate base per Schedule II-B} \end{array}$$

**MONARCH'S RESPONSE TO  
OPUC'S SECOND RFI**

**OPUC 2-4** Please reference the Rate Filing Package, Schedules II-B and II-B (S). Please reconcile the differences between the sewer rate base value of \$15,237,833 shown on Schedule II-B and the sewer rate base value of \$15,220,630 as shown on Schedule II-B (S). For any identified errors, please indicate their impact, if any, on the requested sewer revenue requirement.

**RESPONSE:** The discrepancy is because Schedule II-B (S) inadvertently failed to incorporate on row 16 the \$17,203 Accumulated Deferred Income Taxes from cell i17 on Schedule II-E-3.5. This error has no effect on the requested revenue requirement because Schedule II-B (S) is informational only; the amounts on Schedule II-B are correct and roll up to the requested revenue requirement.

**MONARCH'S RESPONSE TO  
OPUC'S SECOND RFI**

**OPUC 2-5** Please reference the Rate Filing Package, Schedule II-E-3.5, Line 4, Columns (h) and (i). Please provide source documentation which supports and explains the hard-coded values embedded in the water depreciation deferred credit amount of (\$595,736) and embedded in the sewer depreciation deferred credit amount of \$5,009.

**RESPONSE:** The values embedded in the cells on Line 4, Columns (h) and (i), represent the following:

- Specific ADFIT related to depreciation for assets that are water only
- Specific ADFIT related to depreciation for assets that are wastewater only
- ADFIT related to depreciation for shared assets that are functionalized to determine the split between water and wastewater
- ADFIT related to parent company allocated rate base assets that are functionalized to determine the split between water and wastewater.

In preparing this response, it was discovered that the \$590,726 ADFIT liability included in the rate filing package was understated by \$459,634 due to the inadvertent reversal of signs on several ADFIT components. The correct balance is \$131,092. Please see Attachment OPUC 2-5 for a detailed breakout of the as filed and as corrected amounts and the functionalization calculations.

**MONARCH'S RESPONSE TO  
OPUC'S SECOND RFI**

**OPUC 2-6** Please reference the Rate Filing Package, Schedule II-E-3. Please provide supporting documentation that explains and identifies the Meals & Entertainment expense of 1,099 at Line 17. Please confirm that it is Monarch's intent that the revenue requirement charged to ratepayers include income tax on these items.

**RESPONSE:** Meals & entertainment expense of \$1,099 represents non-deductible permanent differences for federal income tax purposes. This amount was inadvertently included in Schedule II-E-3 at line 17. It is not Monarch's intent to include the \$292.11 of income tax on these items in revenue requirement.

**MONARCH'S RESPONSE TO  
OPUC'S SECOND RFI**

**OPUC 2-7** Please reference WP/II-D-4 (SH):

- a. Lines 1 through 8. Please provide all invoices supporting the legal expenses identified and explain how these services will be recurring.
- b. Line 21. Please explain the Conference Services provided by Charles Profilet Jr. and how these services will be recurring.
- c. Line 36. Please explain the Mobile Device Expense for Charles Profilet Jr. and why this expense will be recurring.
- d. Lines 61 through 67. Please provide all invoices supporting the professional fees identified and explain how these services will be recurring.

**RESPONSE:**

- a. Please see Attachment OPUC 2-7a for a complete listing of invoices. Per agreement with OPUC, Monarch is immediately providing all invoices for expenses greater than \$499 with this response as Attachment OPUC 2-7a and will supplement its response with all additional invoices at a later date. As shown in the service descriptions of the provided invoices, services provided are for normal, recurring business activities such as regulatory filings with the Commission, review of construction contracts, and filings with the Texas secretary of state. Monarch inadvertently included \$513.50 as a recurring legal expense, identified as Invoice Number/Doc Number 97500655; Monarch is not seeking recovery of this amount as recurring legal expense.
- b. These costs are related to the conference services of the TXU president, who was Charles Profilet, Jr. during the 2019 test year but is now Jeffrey L. McIntyre.
- c. The mobile device expense is for the TXU president, who was Charles Profilet, Jr. during the 2019 test year but is now Jeffrey L. McIntyre.
- d. Please see Attachment OPUC 2-7d for a complete listing of invoices. Per agreement with OPUC, Monarch is immediately providing all invoices for expenses greater than \$499 with this response and will supplement its response with all additional invoices at a later date. As shown in service descriptions on the invoices, services provided are for normal recurring business activities such as human resource consulting, phone answering services, customer relations and communications, and fees to the company's auditor, PricewaterhouseCoopers.

I think it's fine for Paula to complete the deposit as long as it's going to Monarch's account. If it's going to cause a lot of difficulty for Paula, it can be forwarded to Darisso Ruben.

If you complete the deposit, please code the check as follows:

Company 3020  
Account 658040 – Professional Fees – Legal  
Cost Center 30200101

Thanks,

Carmelitha,

Please see the attached information for a check related to Monarch from Chambers County Improvement District.

Paula is needing coding to deposit there in Suburban or you may want it forwarded to you for depositing and processing.

Thanks,

Hi Doris,

Joe Park received this check and asked if I could deposit here. We can do that for you if you could give us the coding but if you want this handled differently please let me know because I'm not familiar with Monarch legal bills. I have attached a copy of the check and the backup that was attached. I will wait for your response and thanks for any help you can provide, Doris. ☺

Thanks,

**Subject:** 2019 TXU Cost Center Assignments and Coding

Texas Utilities Team,

In order to better align our organizational reporting for clarity and efficiency, we are revising several cost center names and numbers beginning with January 2019 business. The reason we are making these reporting changes is to reflect Monarch's role as our largest Texas utility in terms of connections and geographic reach. The new reporting structure will provide better transparency for our regulatory filings, and provide a unified platform for future growth opportunities.

Key changes are as follows and will be effective as of January 1<sup>st</sup>, 2019. Therefore, please begin coding business charges for 2019 in these new cost centers. Note to Employees in one of the Cost Centers below; you will soon receive a follow-up email with your new cost center number.

- The 2018 Cost Centers below are moving from Company 2000 (SWWC Utilities) to Company 3020 (Monarch) in 2019
