TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

September 1, 2020

JAMES L NELSON, OWNER
206 OAK ST
NOCONA TX, 76255-4915

SUBJECT: **Revised Total Coliform Rule - Level 2 Assessment Reminder**
WATERCO - PWS ID NO. TX1690028
MONTAGUE County, TX

**This letter contains important information about compliance requirements
for your public water system.**

Attention: Public Water System Owner/Manager/Operator

The Texas Commission on Environmental Quality (TCEQ) mailed notification of the Level 2 Assessment (L2A) to your water system July 23, 2020. System representatives refused assistance from TCEQ's Texas Optimization Program and Texas Rural Water Association on August 10, 2020. A record review by our program indicates the assessment has not been received as of August 28, 2020. The L2A was due to the TCEQ on August 21, 2020. The generic L2A form is available online at <https://www.tceq.texas.gov/drinkingwater/revised-total-coliform-rule>. Included with this letter is a customized form to assist in your self-assessment. Please ensure the assessment is completed and submitted as soon as possible.

Any failure to comply with the Revised Total Coliform Rule (RTCR) subjects the public water system (PWS) to the Environmental Protection Agency's enforcement authority for failing to conduct and/or complete the required assessment within the timeframe specified in 40 Code of Federal Regulations §141.859(b) [see 30 Texas Administrative Code §290.109(c)(3)]. To view the PWS' information and coliform monitoring data, visit Texas Drinking Water Watch at <https://www.tceq.texas.gov/goto/dww>. If you have any questions or need further information please contact a member of the RTCR program at (512) 239-4691 or TCRData@tceq.texas.gov.

Sincerely,

Michele Risko, Manager
Drinking Water Standards Section
Water Supply Division
