First Name: Raymundo Last Name: Cruz
Phone Number: (830) 981-8826 Fax Number: _____
Address, City, State: 9906 Scenic Hills Dr.

I am NOT requesting to intervene in this proceeding. As a PROTESTOR, I understand the following:

- I am NOT a party to this case;
- My comments are not considered evidence in this case; and
- I have no further obligation to participate in the proceeding.

Please check one of the following:

- I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.
- One or more of the utility's proposed routes would cross my property.
- Other. Please describe and provide comments. You may attach a separate page, if necessary. _____

The choice to built an electrical substation with towers to supply power to our neighborhood should be reconsidered. We need to stop from destroying the serenity and beauty that God created for us to enjoy

and appreciate. It will be shameful and a disgrace to not implement a system with today's technology to meet today's requirements.

I am sure that the team that is working on this project has requested information from other metropolitan for the way that they supply electricity to their subdivision.

I believe that there is a better way without installing an electrical substation with a generator and electrical high galvanize towers with electrical wires to supply electricity.

Reconsider other options and let us go forward using today's technology and not go backwards.

Thank You.
Raymundo Cruz
