Address, City, State: 25807 Dull Knife Tr. San Antonio, TX 78255

I am NOT requesting to intervene in this proceeding. As a PROTESTOR, I understand the following:

- I am NOT a party to this case;
- My comments are not considered evidence in this case; and
- I have no further obligation to participate in the proceeding.

Please check one of the following:

- ☒ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.
- ☐ One or more of the utility's proposed routes would cross my property.
- ☒ Other. Please describe and provide comments. You may attach a separate page, if necessary. Powerline

segment 17 will be running on the entire westside of our sub-division, Serene and Scenic Hills. This segment would alter the view of 20 existing and inhabited homesites. My property value would definitely decrease as the west view would be violated/destroyed. I bought and invested in this property for the west view. Our beautiful evening sunset would be ruined.

If substation sites 6 or 7 are chosen, the powerline from substation 6 could run from 50 segment to 15 segment and intersect with segments 22, 21 and 20. Then segment 36 would follow which intersects with 31, 35 and 42 segments. If substation 7 is selected powerline/segments 54 to 20 and 21 to 36. Segment 17 would not be needed. I am vehemently opposed to having segment 17 running behind my property and our neighborhood, Serene and Scenic Hills.

After studying the provided packet of information, there is one more suitable option. Use substation 7 and run segments 54, 21, 25, 37, 38 and 43. This is 4.73 miles which is the shortest route, option BB. I could support option BB.
