running segment 17 behind my property. The view would be destroyed and my value on my property / homestead would be terribly decreased. I am in favor of progress and helping those in need of better electrical service/power, but not at the sacrifice of my biggest investment, our home and land! There are other options available that can accomplish the CPS Energy goal of an additional substation. Segment 17 does not have to be run behind Serene and Scenic Hills thus ruining the view of 20 existing and occupied homesites. I suggest looking at other proposed options. Substation sites 6 or 7 could be selected. If 6 if chosen then segment 50 to 15 could intersect with segments 22,21 and 20 followed by 36 to 31,35 and 42. If outstation 7 is chosen then segments 54 to 20, 21 and 36 would be run. Segment 17 does not have to be an option as Wouldn't be required or needed. Option BB seems bestas it his the shortest route from substation 7 at 4.3 miles. It As stated above, I do not want segment 17 running behind my homestead or our peaceful and scenic neighborhood of Serene and Scenic Hills. I can support CPS Energy effort as long as Segment 17 is not utilized.
