Request to Intervene: Public Utilities Commission Docket No. 51023

I am the owner of a parcel of property on Dull Knife Trail in the Serene and Scenic Hills Subdivision located in Bexar County Texas. The proposed Route 17 of the Public Utilities Commission Docket No. 51023 would diminish the value of my property. The financial value notwithstanding, the sentimental value of the property means a great deal to me. This property is next my parents' home. The location of most of our family gathering for the past 30 years.

My paternal grandparents lived with my parents until the day they died. I still remember sitting outside, walking the yard, and celebrating Easter with our whole family. The celebrations are great and not having intrusive city infrastructure has always been a major part of the escape when visiting.

My parents are getting older now and require assistance for even the easiest of daily activities. I now spend more time in their house than I do anywhere else. I cannot imagine the negative end of life surroundings my parents would have with the installation of Route 17.

Please select an alternative route for the powerlines! I say NO to route 17!

Sincerely,

Dora L. Broadwater
