III. Basis for Intervention

The Putnams own property that may be adversely affected, as that term is defined in 16 Texas Administrative Code (TAC) §22.52(a)(3), by the proposed transmission line that is the subject of the application in this docket. Specifically, the Putnams own property in Bexar County, Texas that would be affected if the project is constructed on Segment 40 included in the application. Movants are included on the Landowner Mailing List CPS Energy included as part of its application,¹ therefore, they have justiciable interests that may be adversely affected by the outcome of this docket and on that basis they seek to intervene. Movants' interests are physically and legally distinct from any other party and no other party can adequately represent their interests. The Chandlers request this Motion to Intervene be granted and that Chip and Pamela Putnam be recognized as parties in this proceeding.

IV. Acknowledgements

Movants acknowledge: (1) They will be parties to the case; (2) they will be required to respond to all discovery requests from other parties in the case; (3) if the Putnams file testimony, other parties may cross-examine at a hearing any Putnam witness(es) providing testimony in this case; (4) if the Putnams file any documents in this case, copies of those documents must be provided to every other party to this case under the rules of the Public Utility Commission of Texas and orders of the Administrative Law Judge; and (5) the Chandlers are bound by the Procedural Rules of the Public Utility Commission of Texas and the State Office of Administrative Hearings.

¹ The CPS Energy application includes an ownership list with parcel numbers for affected landowners. The Putnams' parcels are:
