Phone Number: 305-342-5626 Fax Number: n/a
Address, City, State: 26327 Dull Knife Trl, San Antonio TX

I am NOT requesting to intervene in this proceeding. As a PROTESTOR, I understand the following:

- I am NOT a party to this case;
- My comments are not considered evidence in this case; and
- I have no further obligation to participate in the proceeding.

Please check one of the following:

- I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.
- One or more of the utility's proposed routes would cross my property.
- Other. Please describe and provide comments. You may attach a separate page, if necessary. _____

Re: Docket No. 51023

Dear Public Utility Commission,

As the owner of a residence located near one or more of the utility's proposed routes for a transmission line, I have serious concerns and objections to the project.

Our neighborhood, Serene and Scenic Hills, is the home of many younger families with small children, including my own three boys aged 7, 5, and 1 year(s) old. The lack of high voltage transmission lines close by was a large factor in the purchase of our home in this area several years ago, as the health and safety of our family is of paramount importance. There are many studies showing correlation of continual exposure to strong electro-magnetic fields to various terminal illnesses, including childhood leukemia, as well as a variety of other health issues.

Based on that, for the safety and well-being of all the children in our neighborhood including my own, please reject any proposed plan that utilizes proposed line Segments 13, 14 or 2, and if possible reject Segments 54, 17, and 5 as well. Similarly, any plan that uses Substation location 1 or 7 also puts our neighborhood kids at risk, and Substation locations 2, 3 and even 7 are also too close for comfort.

In addition to the health and safety risks, there would also be serious property value problems, were the above transmission line segments and substations utilized. The project would devalue many of the homes in our neighborhood by making it a much less desirable of an area to live for families especially, and thus damaging permanently our happy community. Many could feel forced to relocate, most likely selling their homes at a loss and potentially ruining the financial stability of some families, thus directly damaging our children's future.

In short, I ask that your decision protect all the children of Serene and Scenic Hills and our neighboring communities by not bringing risky and/or dangerous high voltage transmission lines and power substations too close to where they sleep and play.

Sincerely,
Daniela Craig
Homeowner and Mother of Three
