**I am requesting to intervene in this proceeding. As an INTERVENOR, I understand the following:**

- I am a party to the case;
- I am required to respond to all discovery requests from other parties in the case;
- If I file testimony, I may be cross-examined in the hearing;
- If I file any documents in the case, I will have to provide a copy of that document to every other party in the case; and
- I acknowledge that I am bound by the Procedural Rules of the Public Utility Commission of Texas (PUC) and the State Office of Administrative Hearings (SOAH).

**Please check one of the following:**

- ☐ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.
- ☒ One or more of the utility's proposed routes would cross my property.
- ☐ Other. Please describe and provide comments. You may attach a separate page, if necessary.

I own the property at 25820 Boerne Stage Road. The legal description of the property is CB 4705 P-6B ABS 339 144.000AC. See attached statement concerning my objection to the proposed transmission route through my property as opposed to along Boerne Stage Road.

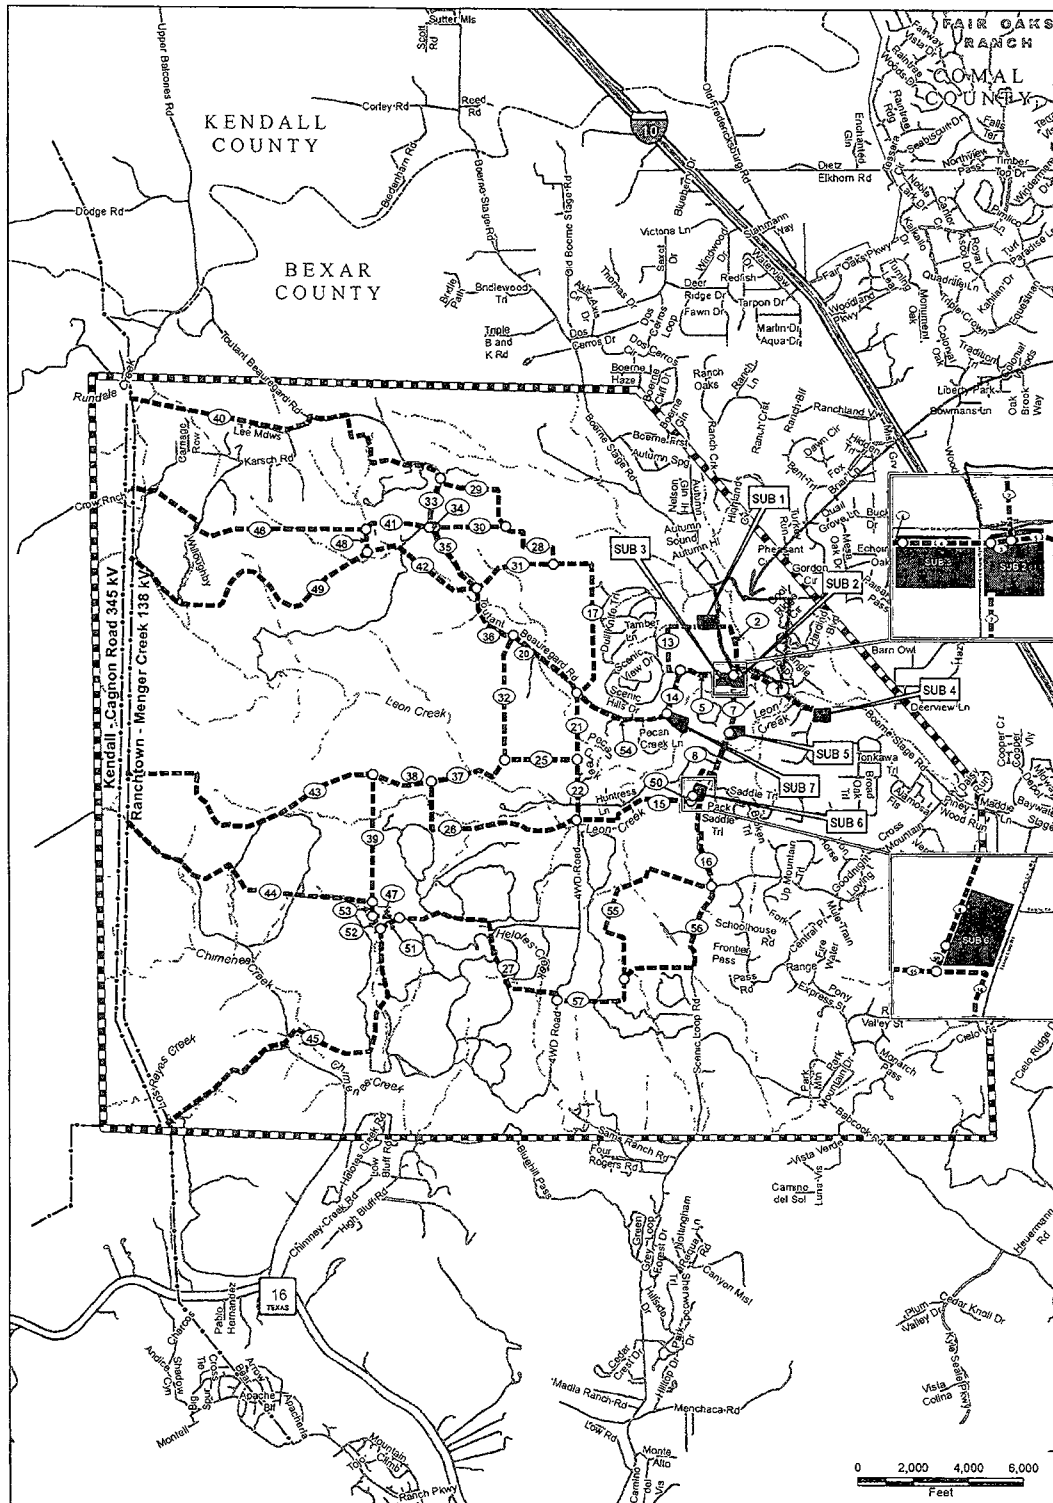

**Signature of person requesting intervention:**

Maria Uriarte-Azcue

Date: DEC 10 2020

Effective: April 8, 2020

I am the owner of the property at 25820 Boerne Stage Road, San Antonio, Texas 78006. The proposed route from substation 2 to substation 1 is needlessly routed to cross over and through my property, which contains a large residence. There is not only no need to cross my property, but such a route will interfere with and negatively impact the property. It makes no sense not to follow the perimeter of my property along Boerne Stage Road, as such a route will allow me to develop and use my property in the future without the negative impacts from the transmission lines bisecting my property. A copy of the proposed route and my property is attached.
