

## Filing Receipt

**Received - 2021-11-17 06:01:47 PM**

**Control Number - 51023**

**ItemNumber - 946**

**TO: PUBLIC UTILITY COMMISSION OF TEXAS**  
Chairman Peter Lake, Lori Cobos, Will McAdams & Jimmy Glotfelt

**REF: DOCKET 51023**

**DATE: November 17, 2021**

---

I have been an "Intervenor" as well as an active "Pro Se" participant in the Hearing for Merit for Docket 51023. I had planned to provide Oral Argument but was unable to attend the in-person meeting on 2 days' notice. Please know that although I couldn't attend, I still am deeply concerned.

I live in Serene & Scenic Hills Estates and am very concerned and deeply against the use of Substation 7 which would be across the street from our neighborhood. I also am deeply against Routes Z2, Y and any other route that uses segments bordering Serene and Scenic Hills Estates.

Serene and Scenic Hills Estates has approximately 21 houses that front Toutant Beauregard. Many of the lots in our neighborhood, including those on Toutant Beauregard, are around 1 acre lots. Although I feel for those who do not want transmission lines and poles around their ranch and larger acreage properties, I especially feel for and deeply express my concerns with the many homes on Toutant Beauregard that would have these transmission lines in their front yard, all well within 300 ft from their house.

I'm concerned with the entire impact to our neighborhood using Substation 7, Route Z2, Route Y and any other routes that use segments bordering Serene and Scenic Hills Estates would have, but I especially feel for all my neighbors who live on Toutant Beauregard and pray you consider them and others that would be within 300 ft from route Z2 or route Y.

Again, I am against any route that uses substation 7 and travels along Toutant Beauregard. I do support Substation #6 and Route P or R.

Thank you,

Brittany Sykes
