FILED
CLERK

**AGREED MOTION TO ADMIT EVIDENCE AND PROPOSED NOTICE OF
APPROVAL**

On July 10, 2020, Quadvest, L.P. (Quadvest) filed an application to discontinue service to a portion of its water Certificate of Convenience and Necessity (CCN) number 11612 in Jackson County and cancel its CCN. On September 8, 2020, following discussions with Staff of the Public Utility Commission of Texas (Staff), Quadvest filed an application to amend its CCN number 11612 to decertify a portion of the service area in Jackson County, rather than to discontinue service and cancel its CCN. The total area to be decertified includes approximately 152 acres and no current customers. Order No. 6, filed on March 10, 2021, directed the Quadvest and Staff (collectively, the Parties) to jointly file proposed findings of fact and conclusions of law by May 14, 2021. Therefore, this pleading is timely filed.

I. MOTION TO ADMIT EVIDENCE

The Parties request the entry of the following items into the record of this proceeding:

- (a) Quadvest's application and all attachments filed on July 10, 2020 (AIS Item No. 1);
- (b) Quadvest's amended application, digital data, and GIS digital data in Shapefile format filed on September 8, 15 and 18, 2020, respectively (AIS Item Nos. 8, 9, 10);
- (c) Commission Staff's Recommendation on Administrative Completeness, Notice, and Procedural Schedule and attached memorandum filed October 7, 2020 (AIS Item No. 11);
- (d) Quadvest's affidavit of notice to neighboring utilities and affected parties, map, and customer list filed on November 19, 2020 (AIS Item No. 14);
- (e) Quadvest's affidavit of publication and attachments filed on December 7, 2020 (AIS Item No. 17);
- (f) Quadvest's responses to Commission Staff's First Request for Information filed on March 11, 2021 (AIS Item No. 21);
- (g) Quadvest's signed consent form filed on March 11, 2021 (AIS Item No. 22);

(h) Comment letter by Cape Shores POA and Cape Shores Land LLC filed on April 21, 2021 (AIS Item No. 23); and

(i) Commission Staff's final recommendation and attached memorandum filed on April 30, 2021 (AIS Item No. 24).

II. JOINT PROPOSED NOTICE OF APPROVAL

The Parties have agreed on the attached proposed notice of approval, which would approve Quadvest's petition to amend its water CCN No. 11612. The Parties request that the Commission adopt the findings of fact, conclusions of law, and ordering paragraphs from the notice of approval.

III. CONCLUSION

The Parties respectfully request that the items listed above be admitted into the record of this proceeding as evidence and that the attached proposed notice of approval be adopted.

Dated: May 14, 2021

Respectfully submitted,

DOCKET NO. 51035

APPLICATION OF QUADVEST L.P. TO	§	PUBLIC UTILITY COMMISSION
DECERTIFY A PORTION OF ITS	§	
WATER CERTIFICATE OF	§	OF TEXAS
CONVENIENCE AND NECESSITY IN	§	
JACKSON COUNTY	§	

PROPOSED NOTICE OF APPROVAL

This Notice of Approval addresses the application of Quadvest, L.P. (Quadvest) to amend its water certificate of convenience and necessity (CCN) number 11612 to decertify approximately 152 acres of water service area from its service area in Jackson County. The application is granted for the reasons discussed in this Notice of Approval.

I. Findings of Fact

The Commission makes the following findings of fact.

Applicant

1. Quadvest is a domestic for-profit corporation registered with the Texas secretary of state under filing number 800539284.
2. Quadvest operates, maintains, and controls facilities for water service under CCN number 11612 in Jackson County, among other counties.

Application

3. On September 8, 2020, Quadvest filed an amended application to decertify a portion of its water CCN number 11612 in Jackson County.
4. The requested area for decertification is located approximately 10.4 miles west of downtown Palacios, Texas, and is generally bounded on the north by County Road 471; on the east by 1 mile west of County Road 470; on the south by Five Mile Creek and Carancahua Bay; and on the west by Carancahua Bay.
5. The requested area includes approximately 152 acres and includes zero current customers.
6. In Order No. 4 filed on October 9, 2020, the administrative law judge (ALJ) found the application administratively complete.

Notice

7. On November 19, 2020, Quadvest filed the affidavit of Yvette McNellie, Quadvest's authorized representative, attesting that notice was mailed to neighboring utilities, county authorities, municipalities, landowners, customers, and affected parties on November 11, 2020.
8. On December 7, 2020, Quadvest filed the affidavit of Chris Lundstrom, Publisher of the *Jackson County Herald Tribune*, attesting to publication of notice in the *Jackson County Herald Tribune*, a newspaper of general circulation in Jackson County, on October 28, 2020 and November 4, 2020.
9. In Order No. 5 filed on December 4, 2020, the ALJ found the notice sufficient.

Maps, Tariff, and Certificates

10. On February 24, 2021, Commission Staff emailed its proposed map, certificate, and tariff to Quadvest.
11. On March 11, 2021, Quadvest filed its consent to the proposed map, certificate, and tariff.
12. On May 14, 2021, Commission Staff filed the proposed map, certificate, and tariff as an attachment to Quadvest's and Commission Staff's (the Parties) agreed motion to admit evidence.

Evidentiary Record

13. On May 14, 2021, the Parties filed an agreed motion to admit evidence and proposed notice of approval.
14. In Order No. __ issued on _____, 2021, the ALJ admitted the following into evidence: (a) Quadvest's application and all attachments filed on July 10, 2020; (b) Quadvest's amended application, digital data, and GIS digital data in Shapefile format filed on September 8, 15 and 18, 2020, respectively; (c) Commission Staff's Recommendation on Administrative Completeness, Notice, and Procedural Schedule and attached memorandum filed October 7, 2020; (d) Quadvest's affidavit of notice to neighboring utilities and affected parties, map, and customer list filed on November 19, 2020; (e) Quadvest's affidavit of publication and attachments filed on December 7, 2020; (f) Quadvest's responses to Commission Staff's first request for information filed on March 11, 2021; (g) Quadvest's signed consent form filed on March 11, 2021; (h) Comment letter

by Cape Shores POA and Cape Shores LLC filed on April 21, 2021; and (i) Commission Staff's final recommendation and attached memorandum filed on April 30, 2021.

Adequacy of Existing Service — Texas Water Code (TWC) § 13.246(c)(1), 16 Texas Administrative Code (TAC) § 24.227(e)(1)

14. Quadvest has never provided water service to any customers in the requested area and does not own any facilities in the requested area.
15. There are no current customers in the requested area.

Need for Additional Service — TWC § 13.246(c)(2); 16 TAC § 24.227(e)(2)

16. Quadvest has received no requests for water service in the requested area.

Effect of Granting the Amendment — TWC § 13.246(c)(3); 16 TAC § 24.245(d)(2)(C)

17. On April 21, 2021, Renee Howes, President of the Cape Shores Property Owners Association, the authorized agent for Cape Shores Land LLC (developer), filed a letter stating that both Cape Shores Property Owners Association and the developer do not oppose Quadvest's request in their application.
18. An agreement is currently in place with an alternative water service provider to serve the development.
19. Future landowners in the development will have to request water service from the alternative water service provider or another retail public utility.
20. All retail public utilities in the proximate area were provided notice of the transaction taking place in this application and did not request to intervene.
21. Granting the CCN amendment will not adversely affect any other retail public utility of the same kind in the proximate area.

Ability to Serve — TWC § 13.246(c)(4); 16 TAC § 24.245(d)(4)

22. Decertification of the requested area will not impact Quadvest's ability to serve the remaining customers in its certificated area. The remaining customers are served by separate water systems outside of the requested area.

Effect on the Land — TWC § 13.246(c)(9); 16 TAC § 24.227(e)(9)

23. Quadvest has no customers and owns no facilities in the requested area, so service to the requested area will not be discontinued, reduced, or impaired.
24. New facilities would need to be constructed by a future CCN holder to serve the area.

Compensation — 16 TAC § 24.245(d)(2)(F)

25. Quadvest is not entitled to compensation from a prospective retail public utility if the request to decertify the requested area is granted.

Informal Disposition

26. More than 15 days have passed since the completion of notice provided in this docket.
27. No person filed a protest or motion to intervene.
28. Quadvest and Commission Staff are the only parties to this proceeding.
29. No party requested a hearing and no hearing is needed.
30. Commission Staff recommended that the application be approved.
31. The decision is not adverse to any party.

II. Conclusions of Law

The Commission makes the following conclusions of law.

1. The Commission has authority over this proceeding under TWC § 13.254.
2. Quadvest is a retail public utility as defined by TWC § 13.002(19) and 16 TAC § 24.3(31).
3. The requested area is eligible for decertification under TWC § 13.254(a) and 16 TAC § 24.245(d)
4. Quadvest provided notice of the application that complies with TWC § 13.246 and 16 TAC § 24.235.
5. The Commission processed the application as required by the TWC, the Administrative Procedure Act,¹ and Commission rules.
6. Quadvest demonstrated that the amendment of its water CCN number 11612 will serve the public interest and is necessary for the service, accommodation, convenience, and safety of the public as required by TWC § 13.246(b).
7. Quadvest is required to record a certified copy of the approved map for the certificate amendment, along with a boundary description of its service area, in the real property records of Jackson County within 31 days of receiving this Notice of Approval and submit to the Commission evidence of the recording, as required by TWC § 13.257(r) and (s).
8. The requirements for informal disposition in 16 TAC § 22.35 have been met in this proceeding.

¹ Tex. Gov't Code § 2001.001-.903.

III. Ordering Paragraphs

In accordance with these findings of fact and conclusions of law, the Commission issues the following orders.

1. The Commission approves the application and amends Quadvest's water CCN number 11612 as described in this Notice of Approval and shown on the map attached to this Notice of Approval.
2. The Commission approves the map attached to this Notice of Approval.
3. Quadvest must provide service to every customer and applicant for service within the area certified under its water CCN 11612 who requests water service and meets the terms of Quadvest's water service, and such service must be continuous and adequate.
4. Quadvest must comply with the recording requirements of TWC § 13.257(r) and (s) for the areas in Jackson County affected by this application.
5. Quadvest must file in this docket proof of the recording required in ordering paragraph four no later than 45 days after the date this Notice of Approval is signed.
6. The Commission denies all other motions and any other requests for general or specific relief that have not been expressly granted

Signed at Austin, Texas the _____ day of _____ 2021.

**ISAAC TA
ADMINISTRATIVE LAW JUDGE**

Public Utility Commission of Texas

By These Presents Be It Known To All That

Quadvest, L.P.

having obtained certification to provide water utility service for the convenience and necessity of the public, and it having been determined by this Commission that the public convenience and necessity would in fact be advanced by the provision of such service, Quadvest, L.P. is entitled to this

Certificate of Convenience and Necessity No. 11612

to provide continuous and adequate water utility service to that service area or those service areas in Aransas, Brazoria, Fort Bend, Harris, Jackson, Liberty, Matagorda, Montgomery, Walker, and Waller Counties as by final Order or Orders duly entered by this Commission, which Order or Orders resulting from Docket No. 51035 are on file at the Commission offices in Austin, Texas; and are matters of official record available for public inspection; and be it known further that these presents do evidence the authority and the duty of the Quadvest, L.P. to provide such utility service in accordance with the laws of this State and Rules of this Commission, subject only to any power and responsibility of this Commission to revoke or amend this Certificate in whole or in part upon a subsequent showing that the public convenience and necessity would be better served thereby.

WATER UTILITY TARIFF

Tariff Control No. 51035

Quadvest, L.P.
(Utility Name)

26926 FM 2978
(Business Address)

Magnolia, Texas 77354
(City, State, Zip Code)

281/356-5347
(Area Code/Telephone)

This tariff is effective for utility operations under the following Certificate of Convenience and Necessity:

11612

This tariff is effective in the following counties:

Aransas, Brazoria, Fort Bend, Harris, Jackson, Liberty, Matagorda, Montgomery, Walker, and Waller

This tariff is effective in the following cities or unincorporated towns (if any):

Richmond (portion of Bridlewood Estates only - same rates)

This tariff is effective in the following subdivisions or systems:

See attached chart.

10"	\$(61.26)	\$(48.22)
12"	\$(114.52)	\$(90.16)

FORM OF PAYMENT: The utility will accept the following forms of payment:

Cash X, Check X, Money Order X, Credit Card X, Other (specify) Bank Draft

THE UTILITY MAY REQUIRE EXACT CHANGE FOR PAYMENTS AND MAY REFUSE TO ACCEPT PAYMENTS MADE USING MORE THAN \$1.00 IN SMALL COINS. A WRITTEN RECEIPT WILL BE GIVEN FOR CASH PAYMENTS.

REGULATORY ASSESSMENT 1.0%

PUC RULES REQUIRE THE UTILITY TO COLLECT A FEE OF ONE PERCENT OF THE RETAIL MONTHLY BILL AND TO REMIT THE FEE TO THE TCEQ.

Section 1.02 - Miscellaneous Fees

TAP FEE \$810.00

TAP FEE COVERS THE UTILITY'S COSTS FOR MATERIALS AND LABOR TO INSTALL A STANDARD RESIDENTIAL 5/8" x 3/4" METER. AN ADDITIONAL FEE TO COVER UNIQUE COSTS IS PERMITTED IF LISTED ON THIS TARIFF.

TAP FEE \$910.00

TAP FEE COVERS THE UTILITY'S COSTS FOR MATERIALS AND LABOR TO INSTALL A STANDARD 3/4" and 1" METER. AN ADDITIONAL FEE TO COVER UNIQUE COSTS IS PERMITTED IF LISTED ON THIS TARIFF.

TAP FEE (Large meter) Actual Cost

TAP FEE IS THE UTILITY'S ACTUAL COST FOR MATERIALS AND LABOR FOR METER SIZE INSTALLED.

TAP FEE (Unique Costs) Actual Cost

FOR EXAMPLE, A ROAD BORE FOR CUSTOMERS OUTSIDE A SUBDIVISION IS A UNIQUE COST. UNIQUE COST WILL BE DETERMINED ON A CASE BY CASE BASIS.

SECTION 1.0 -- RATE SCHEDULE (Continued)

RECONNECTION FEE

THE RECONNECT FEE MUST BE PAID BEFORE SERVICE CAN BE RESTORED TO A CUSTOMER WHO HAS BEEN DISCONNECTED FOR THE FOLLOWING REASONS (OR OTHER REASONS LISTED UNDER SECTION 2.0 OF THIS TARIFF):

- a) Nonpayment of bill (Maximum \$25.00)\$25.00
 - b) Customer's request that service be disconnected.....\$50.00
- OR OTHER REASONS LISTED UNDER SECTION 2.0 OF THIS TARIFF

SEASONAL RECONNECTION FEE:

BASE RATE TIMES NUMBER OF MONTHS OFF THE SYSTEM NOT TO EXCEED SIX MONTHS WHEN LEAVE AND RETURN WITHIN A TWELVE MONTH PERIOD.

TRANSFER FEE\$45.00

THE TRANSFER FEE WILL BE CHARGED FOR CHANGING AN ACCOUNT NAME AT THE SAME SERVICE LOCATION WHEN THE SERVICE IS NOT DISCONNECTED.

LATE CHARGE (EITHER \$5.00 OR 10% OF THE BILL) 10%

PUC RULES ALLOW A ONE-TIME PENALTY TO BE CHARGED ON DELINQUENT BILLS. A LATE CHARGE MAY NOT BE APPLIED TO ANY BALANCE TO WHICH THE PENALTY WAS APPLIED IN A PREVIOUS BILLING.

RETURNED CHECK CHARGE\$25.00

RETURNED CHECK CHARGES MUST BE BASED ON THE UTILITY'S DOCUMENTABLE COST.

CUSTOMER DEPOSIT RESIDENTIAL (Maximum \$50).....\$50.00

COMMERCIAL & NON-RESIDENTIAL DEPOSIT 1/6TH OF ESTIMATED ANNUAL BILL

METER TEST FEE\$25.00

THIS FEE WHICH SHOULD REFLECT THE UTILITY'S COST MAY BE CHARGED IF A CUSTOMER REQUESTS A SECOND METER TEST WITHIN A TWO-YEAR PERIOD AND THE TEST INDICATES THAT THE METER IS RECORDING ACCURATELY. THE FEE MAY NOT EXCEED \$25.

METER RELOCATION FEEActual Cost to Relocate the Existing Meter

THIS FEE MAY BE CHARGED IF A CUSTOMER REQUESTS RELOCATION OF AN EXISTING METER.

METER CONVERSION FEEActual Cost to Convert the Existing Meter

THIS FEE MAY BE CHARGED IF A CUSTOMER REQUESTS CHANGE OF SIZE OF AN EXISTING METER OR CHANGE IS REQUIRED BY MATERIAL CHANGE IN CUSTOMERS SERVICE DEMAND.

ILLEGAL RECONNECTION, LOCK REMOVAL OR DAMAGE FEE.....\$100.00

THIS FEE MAY BE CHARGED TO A DISCONNECTED CUSTOMER FOR DAMAGE CAUSED BY CUSTOMER'S ATTEMPT TO RESTORE WATER SERVICE BY CUTTING OR BREAKING LOCK, REMOVAL OR BYPASS OF METER.

GOVERNMENTAL TESTING, INSPECTION AND COSTS SURCHARGE:

WHEN AUTHORIZED IN WRITING BY PUC AND AFTER NOTICE TO CUSTOMERS, THE UTILITY MAY INCREASE RATES TO RECOVER INCREASED COSTS FOR INSPECTION FEES AND WATER TESTING. [16 TAC § 24.25(b)(2)(G)]

LINE EXTENSION AND CONSTRUCTION CHARGES:

REFER TO SECTION 3.0--EXTENSION POLICY FOR TERMS, CONDITIONS, AND CHARGES WHEN NEW CONSTRUCTION IS NECESSARY TO PROVIDE SERVICE.

SECTION 1.0 -- RATE SCHEDULE (Continued)

TEMPORARY WATER RATE:

Unless otherwise superseded by PUC order or rule, if the Utility is ordered by a court or government body of competent jurisdiction to reduce its pumpage, production or water sales, the Utility shall be authorized to increase its approved gallonage charge according to the formula:

$$TGC = \frac{cgc + (pr)(cgc)(r)}{(1.0 - r)}$$

Where:

- TGC = temporary gallonage charge
- cgc = current gallonage charge
- r = water use reduction expressed as a decimal fraction (the pumping restriction)
- pr = percentage of revenues to be recovered expressed as a decimal fraction, for this tariff pr shall equal 0.5

To implement the Temporary Water Rate, the Utility must comply with all notice and other requirements of 16 TAC § 24.25(j).

Pass Through Provision:

For Utilities subject to changes in costs imposed by any non-affiliated provider of purchased water or sewer or a groundwater conservation district having jurisdiction over the Utility, these increases (decreases) shall be passed through as an adjustment to the gallonage charge according to the formula:

$$R = G / (1 - L)$$

Where:

- R = the proposed pass-through rate;
- G = the new gallonage charge (per 1,000 gallons) by source supplier;
- L = the actual line loss for the preceding 12 months, not to exceed 0.15

SECTION 1.0 -- RATE SCHEDULE (Continued)

FORM OF PAYMENT: The utility will accept the following forms of payment:

Cash X, Check X, Money Order X, Credit Card X, Other (specify) Bank Draft
THE UTILITY MAY REQUIRE EXACT CHANGE FOR PAYMENTS AND MAY REFUSE TO ACCEPT PAYMENTS
MADE USING MORE THAN \$1.00 IN SMALL COINS. A WRITTEN RECEIPT WILL BE GIVEN FOR CASH
PAYMENTS.

REGULATORY ASSESSMENT 1.0%
PUC RULES REQUIRE THE UTILITY TO COLLECT A FEE OF ONE PERCENT OF THE RETAIL MONTHLY BILL
AND TO REMIT THE FEE TO THE TCEQ.

Section 1.02 - Miscellaneous Fees

TAP FEE \$500.00
TAP FEE COVERS THE UTILITY'S COSTS FOR MATERIALS AND LABOR TO INSTALL A STANDARD
RESIDENTIAL 5/8" x 3/4" METER. AN ADDITIONAL FEE TO COVER UNIQUE COSTS IS PERMITTED IF LISTED
ON THIS TARIFF.

TAP FEE (Unique Costs) Actual Cost
FOR EXAMPLE, A ROAD BORE FOR CUSTOMERS OUTSIDE A SUBDIVISION IS A UNIQUE COST. UNIQUE COST
WILL BE DETERMINED ON A CASE BY CASE BASIS.

TAP FEE (Large meter) Actual Cost
TAP FEE IS THE UTILITY'S ACTUAL COST FOR MATERIALS AND LABOR FOR METER SIZE INSTALLED.

METER RELOCATION FEE Actual Relocation Cost, Not to Exceed Tap Fee
THIS FEE MAY BE CHARGED IF A CUSTOMER REQUESTS THAT AN EXISTING METER BE RELOCATED.

METER TEST FEE \$25.00
REQUESTS A SECOND METER TEST WITHIN A TWO-YEAR PERIOD AND THE TEST INDICATES THAT
THE METER IS RECORDING ACCURATELY. THE FEE MAY NOT EXCEED \$25.

METER CONVERSION FEE Actual Cost to Convert the Existing Meter
THIS FEE MAY BE CHARGED IF A CUSTOMER REQUESTS CHANGE OF SIZE OF AN EXISTING METER OR
CHANGE IS REQUIRED BY MATERIAL CHANGE IN CUSTOMERS SERVICE DEMAND.

ILLEGAL RECONNECTION, LOCK REMOVAL OR DAMAGE FEE \$100.00
THIS FEE MAY BE CHARGED TO A DISCONNECTED CUSTOMER FOR DAMAGE CAUSED BY CUSTOMER'S
ATTEMPT TO RESTORE WATER SERVICE BY CUTTING OR BREAKING LOCK, REMOVAL OR BYPASS OF
METER.

RECONNECTION FEE

THE RECONNECT FEE MUST BE PAID BEFORE SERVICE CAN BE RESTORED TO A CUSTOMER WHO HAS
BEEN DISCONNECTED FOR THE FOLLOWING REASONS (OR OTHER REASONS LISTED UNDER SECTION 2.0
OF THIS TARIFF).

- a) Non-payment of bill (Maximum \$25.00) \$25.00
- b) Customer's request that service be disconnected \$40.00

TRANSFER FEE \$40.00
THE TRANSFER FEE WILL BE CHARGED FOR CHANGING AN ACCOUNT NAME AT THE SAME SERVICE
LOCATION WHEN THE SERVICE IS NOT DISCONNECTED.

SECTION 1.0 -- RATE SCHEDULE (Continued)

LATE CHARGE (EITHER \$5.00 OR 10% OF THE BILL) 10%

TCEQ RULES ALLOW A ONE-TIME PENALTY TO BE CHARGED ON DELINQUENT BILLS. A LATE CHARGE MAY NOT BE APPLIED TO ANY BALANCE TO WHICH THE PENALTY WAS APPLIED IN A PREVIOUS BILLING.

RETURNED CHECK CHARGE \$35.00

RETURNED CHECK CHARGES MUST BE BASED ON THE UTILITY'S DOCUMENTABLE COST.

CUSTOMER DEPOSIT RESIDENTIAL (Maximum \$50) \$50.00

COMMERCIAL & NON-RESIDENTIAL DEPOSIT ..1/6TH OF ESTIMATED ANNUAL BILL

GOVERNMENTAL TESTING, INSPECTION AND COSTS SURCHARGE

WHEN AUTHORIZED IN WRITING BY TCEQ AND AFTER NOTICE TO CUSTOMERS, THE UTILITY MAY INCREASE RATES TO RECOVER INCREASED COSTS FOR INSPECTION FEES AND WATER TESTING. [16 TAC § 24.25(b)(2)(G)]

LINE EXTENSION AND CONSTRUCTION CHARGES:

REFER TO SECTION 3.0--EXTENSION POLICY FOR TERMS, CONDITIONS, AND CHARGES WHEN NEW CONSTRUCTION IS NECESSARY TO PROVIDE SERVICE.

Pass Through Provision:

For Utilities subject to changes in costs imposed by any non-affiliated provider of purchased water or sewer or a groundwater conservation district having jurisdiction over the Utility, these increases (decreases) shall be passed through as an adjustment to the gallonage charge according to the formula:

$$R = G / (1 - L)$$

Where:

R = the proposed pass-through rate;

G = the new gallonage charge (per 1,000 gallons) by source supplier;

L = the actual line loss for the preceding 12 months, not to exceed 0.15

SECTION 1.0 - RATE SCHEDULE

Section 1.01 - Rates

<u>Meter Size</u>	<u>Monthly Minimum Rate</u> (Includes 0 Gallons)	<u>Gallonge Charge</u>
5/8" or 3/4"	<u>\$35.00</u>	<u>\$2.50</u> per 1,000 gallons
3/4"	<u>\$52.50</u>	
1"	<u>\$87.50</u>	
1½"	<u>\$175.00</u>	
2"	<u>\$280.00</u>	
3"	<u>\$525.00</u>	

PLUS:

Pass Through Fee:

Effective April 12, 2020

North Harris County Regional Water Authority (NHCRWA) for

Bammel Forest, Bammel Timbers, Pecan Forest..... \$5.53 per 1,000 gallons
(Tariff Control No. 50461)

FORM OF PAYMENT: The utility will accept the following forms of payment:

Cash X, Check X, Money Order X, Credit Card X, Other (specify) Bank Draft
 THE UTILITY MAY REQUIRE EXACT CHANGE FOR PAYMENTS AND MAY REFUSE TO ACCEPT PAYMENTS
 MADE USING MORE THAN \$1.00 IN SMALL COINS. A WRITTEN RECEIPT WILL BE GIVEN FOR CASH
 PAYMENTS.

REGULATORY ASSESSMENT..... 1.0%
 PUC RULES REQUIRE THE UTILITY TO COLLECT A FEE OF ONE PERCENT OF THE RETAIL MONTHLY BILL
 AND TO REMIT THE FEE TO THE TCEQ.

Section 1.02 - Miscellaneous Fees

TAP FEE.....\$500.00
 TAP FEE IS BASED ON THE AVERAGE OF THE UTILITY'S ACTUAL COST FOR MATERIALS AND LABOR FOR
 STANDARD RESIDENTIAL CONNECTION OF 5/8" or 3/4" METER PLUS UNIQUE COSTS AS PERMITTED BY PUC
 RULE AT COST.

TAP FEE (Unique costs)Actual Cost
 FOR EXAMPLE, A ROAD BORE FOR CUSTOMERS OUTSIDE OF SUBDIVISIONS OR RESIDENTIAL AREAS.

TAP FEE (Large Meter)Actual Cost
 TAP FEE IS BASED ON THE UTILITY'S ACTUAL COST FOR MATERIALS AND LABOR FOR METERS LARGER
 THAN STANDARD 5/8" or 3/4" METERS.

METER TEST FEE (actual cost of testing the meter up to)\$25.00
 THIS FEE MAY BE CHARGED IF A CUSTOMER REQUESTS A SECOND METER TEST WITHIN A TWO-YEAR
 PERIOD AND THE TEST INDICATES THAT THE METER IS RECORDING ACCURATELY.

METER RELOCATION FEEActual cost to relocate that meter
 THIS FEE MAY BE CHARGED IF A CUSTOMER REQUESTS RELOCATION OF AN EXISTING METER

Tariff Control No. 51035

SECTION 1.0 -- RATE SCHEDULE (Continued)

METER CONVERSION FEE Actual cost to convert that meter
THIS FEE MAY BE CHARGED IF A CUSTOMER REQUESTS CHANGE OF SIZE OF AN EXISTING METER OR
CHANGE IS REQUIRED BY MATERIAL CHANGE IN CUSTOMER'S SERVICE DEMAND.

RECONNECTION FEE

THE RECONNECT FEE WILL BE CHARGED BEFORE SERVICE CAN BE RESTORED TO A CUSTOMER WHO HAS
BEEN DISCONNECTED FOR THE FOLLOWING REASONS:

- a) Nonpayment of bill (Maximum \$25.00)..... \$25.00
b) Customer's request..... \$25.00
OR OTHER REASONS LISTED UNDER SECTION 2.0 OF THIS TARIFF

SEASONAL RECONNECTION FEE

BASE RATE FOR METER SIZE TIMES NUMBER OF MONTHS OFF THE SYSTEM NOT TO EXCEED SIX MONTHS
WHEN CUSTOMERS LEAVE AND RETURN WITHIN A TWELVE MONTH PERIOD.

TRANSFER FEE \$25.00

THE TRANSFER FEE WILL BE CHARGED FOR CHANGING AN ACCOUNT NAME AT THE SAME SERVICE
LOCATION WHEN THE SERVICE IS NOT DISCONNECTED

LATE CHARGE \$5.00

A ONE-TIME PENALTY MAY BE MADE ON DELINQUENT BILLS BUT MAY NOT BE APPLIED TO ANY
BALANCE TO WHICH THE PENALTY WAS APPLIED IN A PREVIOUS BILLING.

RETURNED CHECK CHARGE \$25.00

CUSTOMER DEPOSIT RESIDENTIAL (Maximum \$50) \$50.00

COMMERCIAL AND NON-RESIDENTIAL DEPOSIT 1/6TH EST. ANNUAL BILL

GOVERNMENTAL TESTING, INSPECTION AND COSTS SURCHARGE

WHEN AUTHORIZED IN WRITING BY TCEQ AND AFTER NOTICE TO CUSTOMERS, THE UTILITY MAY
INCREASE RATES TO RECOVER INCREASED COSTS FOR INSPECTION FEES AND WATER TESTING. [16 TAC
§ 24.25(b)(2)(G)]

LINE EXTENSION AND CONSTRUCTION CHARGES:

REFER TO SECTION 3.0--EXTENSION POLICY FOR TERMS, CONDITIONS, AND CHARGES WHEN NEW
CONSTRUCTION IS NECESSARY TO PROVIDE SERVICE.

SECTION 1.0 -- RATE SCHEDULE (Continued)

TEMPORARY WATER RATE:

Unless otherwise superseded by PUC order or rule, if the Utility is ordered by a court or governmental body of competent jurisdiction to reduce its pumpage, production or water sales, the Utility shall be authorized to increase its approved gallonage charge according to the formula:

$$TGC = cgc + \frac{(pr)(cgc)(r)}{(1.0-r)}$$

Where:

TGC = temporary gallonage charge

cgc = current gallonage charge

r = water use reduction expressed as a decimal fraction (the pumping restriction)

pr = percentage of revenues to be recovered expressed as a decimal fraction, for this tariff pr shall equal 0.5.

To implement the Temporary Water Rate, the utility must comply with all notice and other requirements of 16 TAC § 24.25(j).

Pass Through Provision:

For Utilities subject to changes in costs imposed by any non-affiliated provider of purchased water or sewer or a groundwater conservation district having jurisdiction over the Utility, these increases (decreases) shall be passed through as an adjustment to the gallonage charge according to the formula:

$$R = G / (1 - L)$$

Where:

R = the proposed pass-through rate;

G = the new gallonage charge (per 1,000 gallons) by source supplier;

L = the actual line loss for the preceding 12 months, not to exceed 0.15

SECTION 2.0 -- SERVICE RULES AND POLICIES

The utility will have the most current Public Utility Commission of Texas (PUC or Commission) Commission Rules, Chapter 24, available at its office for reference purposes. The Rules and this tariff shall be available for public inspection and reproduction at a reasonable cost. The latest Rules or Commission approved changes to the Rules supersede any rules or requirements in this tariff.

Section 2.01 - Application for Water Service

All applications for service will be made on the utility's standard application or contract form (attached in the Appendix to this tariff), will be signed by the applicant, any required fees (deposits, reconnect, tap, extension fees, etc. as applicable) will be paid and easements, if required, will be granted before service is provided by the utility. A separate application or contract will be made for each service location.

Section 2.02 - Refusal of Service

The utility may decline to serve an applicant until the applicant has complied with the regulations of the regulatory agencies (state and municipal regulations) and for the reasons outlined in the PUC Rules. In the event that the utility refuses to serve an applicant, the utility will inform the applicant in writing of the basis of its refusal. The utility is also required to inform the applicant that a complaint may be filed with the Commission.

Section 2.03 - Fees and Charges & Easements Required Before Service Can Be Connected

(A) Customer Deposits

If a residential applicant cannot establish credit to the satisfaction of the utility, the applicant may be required to pay a deposit as provided for in Section 1.02 - Miscellaneous Fees of this tariff. The utility will keep records of the deposit and credit interest in accordance with PUC Rules.

Residential applicants 65 years of age or older may not be required to pay deposits unless the applicant has an outstanding account balance with the utility or another water or sewer utility which accrued within the last two years.

Nonresidential applicants who cannot establish credit to the satisfaction of the utility may be required to make a deposit that does not exceed an amount equivalent to one-sixth of the estimated annual billings.

Refund of deposit. - If service is not connected, or after disconnection of service, the utility will promptly refund the customer's deposit plus accrued interest or the balance, if any, in excess of the unpaid bills for service furnished. The utility may refund the deposit at any time prior to termination of utility service but must refund the deposit plus interest for any customer who has paid 18 consecutive billings without being delinquent.

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

(B) Tap or Reconnect Fees

A new customer requesting service at a location where service has not previously been provided must pay a tap fee as provided in Section 1. A customer requesting service where service has previously been provided must pay a reconnect fee as provided in Section 1. Any applicant or existing customer required to pay for any costs not specifically set forth in the rate schedule pages of this tariff shall be given a written explanation of such costs prior to request for payment and/or commencement of construction. If the applicant or existing customer does not believe that these costs are reasonable or necessary, the applicant or existing customer shall be informed of their right to appeal such costs to the PUC or such other regulatory authority having jurisdiction over the utility's rates in that portion of the utility's service area in which the applicant's or existing customer's property(ies) is located.

If the services of a registered professional engineer are required as a result of an application for service received by the Utility for service to that applicant's service extension only, such engineer will be selected by the Utility and the applicant, and the applicant shall bear all expenses incurred therein.

If an applicant requires service other than the standard service provided by the utility, such applicant will be required to pay all expenses incurred by the utility in excess of the expenses that would be incurred in providing the standard service and connection. Any applicant who places unique or non-standard service demands on the system may be required to provide contributions in aid of construction (as may be allowed by PUC rule) for the actual costs of, any additional facilities required to maintain compliance with the Texas Commission on Environmental Quality minimum design criteria for water production, treatment, pumping storage and transmission.

Fees in addition to the regular tap fee may be charged if listed specifically in Section 1 to cover unique costs not normally incurred as permitted by 16 TAC § 24.163(a)(1)(C). For example, a road bore for customers outside a subdivision or residential area could be considered a unique cost.

(C) Easement Requirement

Where recorded public utility easements on the service applicant's property do not exist or public road right-of-way easements are not available to access the applicant's property, the Utility may require the applicant to provide it with a permanent recorded public utility easement on and across the applicant's real property sufficient to provide service to that applicant. Such easement(s) shall not be used for the construction of production, storage, transmission or pressure facilities unless they are needed for adequate service to that applicant.

Section 2.04 - Utility Response to Applications for Service

After the applicant has met all the requirements, conditions and regulations for service, the utility will install tap, meter and utility cut-off valve and/or take all necessary actions to initiate service. The utility will serve each qualified applicant for service within 5 working days unless line extensions or new facilities are required. If construction is required to fill the order and if it cannot be completed within 30 days, the utility will provide the applicant with a written explanation of the construction required and an expected date of service.

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

Except for good cause where service has previously been provided, service will be reconnected within one working day after the applicant has met the requirements for reconnection.

Section 2.05 - Customer Responsibility

The customer will be responsible for furnishing and laying the necessary customer service pipe from the meter location to the place of consumption. Customers will not be allowed to use the utility's cutoff valve on the utility's side of the meter. Existing customers may install cutoff valves on their side of the meter and are encouraged to do so. All new customers may be required to install and maintain a cutoff valve on their side of the meter.

No direct connection between a public water supply system and any potential source of contamination or between a public water supply system and a private water source (ex. private well) will be allowed. A customer shall not connect, or allow any other person or party to connect, onto any water lines on his premises.

Section 2.06 - Customer Service Inspections

Applicants for new service connections or facilities which have undergone extensive plumbing modifications are required to furnish the utility a completed customer service inspection certificate. The inspection certificate shall certify that the establishment is in compliance with the Texas Commission on Environmental Quality (TCEQ) Rules and Regulations for Public Water Systems, 30 TAC § 290.46(j). The Utility is not required to perform these inspections for the applicant/customer, but will assist the applicant/customer in locating and obtaining the services of a certified inspector.

Section 2.07 - Back Flow Prevention Devices

No water connection shall be allowed to any residence or establishment where an actual or potential contamination hazard exists unless the public water facilities are protected from contamination by either an approved air gap, backflow prevention assembly, or other approved device. The type of device or backflow prevention assembly required shall be determined by the specific potential hazard identified in 30 TAC § 290.47(i) Appendix I, Assessment of Hazards and Selection of Assemblies of the TCEQ Rules and Regulations for Public Water Systems.

The use of a backflow prevention assembly at the service connection shall be considered as additional backflow protection and shall not negate the use of backflow protection on internal hazards as outlined and enforced by local plumbing codes. When a customer service inspection certificate indicates that an adequate internal cross-connection control program is in effect, backflow protection at the water service entrance or meter is not required.

At any residence or establishment where it has been determined by a customer service inspection, that there is no actual or potential contamination hazard, as referenced in 30 TAC § 290.47(i) Appendix I, Assessment of Hazards and Selection of Assemblies of the TCEQ Rules and Regulations for Public Water Systems, then a backflow prevention assembly or device is not required. Outside hose bibs do require, at a minimum, the installation and maintenance of a working atmospheric vacuum breaker. All backflow prevention assemblies or devices shall be tested upon installation by a TCEQ certified backflow prevention assembly tester and certified to

Tariff Control No. 51035

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

be operating within specifications. Backflow prevention assemblies which are installed to provide protection against health hazards must also be tested and certified to be operating within specifications at least annually by a certified backflow prevention assembly tester.

If the utility determines that a backflow prevention assembly or device is required, the utility will provide the customer or applicant with a list of TCEQ certified backflow prevention assembly testers. The customer will be responsible for the cost of installation and testing, if any, of backflow prevention assembly or device. The customer should contact several qualified installers to compare prices before installation. The customer must pay for any required maintenance and annual testing and must furnish a copy of the test results demonstrating that the assembly is functioning properly to the utility within 30 days after the anniversary date of the installation unless a different date is agreed upon.

The Utility adopts the Uniform Plumbing Code pursuant to 30 TAC § 290.46(i). The piping and other equipment on the premises furnished by the customer will be maintained by the customer at all times in conformity with the requirements of the PUC and/or TCEQ, the Uniform Plumbing Code and with the service rules and regulations of the Utility. The customer will bring out his service line to his property line at the point on the customer's property mutually acceptable to the customer and the Utility subject to such requirements as may exist by PUC and/or TCEQ rules. No water service smaller than 5/8" will be connected. No pipe or pipe fitting which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use. No solder or flux which contains more than 0.25% lead can be used at any connection which provides water for human use.

Section 2.08 - Access to Customer's Premises

The utility will have the right of access to the customer's premises at all reasonable times for the purpose of installing, testing, inspecting or repairing water mains or other equipment used in connection with its provision of water service, or for the purpose of removing its property and disconnecting lines, and for all other purposes necessary to the operation of the utility system including inspecting the customer's plumbing for code, plumbing or tariff violations. The customer shall allow the utility and its personnel access to the customer's property to conduct any water quality tests or inspections required by law. Unless necessary to respond to equipment failure, leak or other condition creating an immediate threat to public health and safety or the continued provision of adequate utility service to others, such entry upon the customer's property shall be during normal business hours and the utility personnel will attempt to notify the customer that they will be working on the customer's property. The customer may require any utility representative, employee, contractor, or agent seeking to make such entry identify themselves, their affiliation with the utility, and the purpose of their entry.

All customers or service applicants shall provide access to meters and utility cutoff valves at all times reasonably necessary to conduct ordinary utility business and after normal business hours as needed to protect and preserve the integrity of the public drinking water supply.

Threats to or assaults upon utility personnel shall result in criminal prosecution.

Tariff Control No. 51035

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

All customers or service applicants shall provide access to meters and utility cutoff valves at all times reasonably necessary to conduct ordinary utility business and after normal business hours as needed to protect and preserve the integrity of the public drinking water supply.

Section 2.09 - Meter Requirements, Readings, and Testing

One meter is required for each residential, commercial, or industrial connection. All water sold by the utility will be billed based on meter measurements. The utility will provide, install, own and maintain meters to measure amounts of water consumed by its customers.

Meters will be read at monthly intervals and as nearly as possible on the corresponding day of each monthly meter reading period unless otherwise authorized by the Commission.

Meter tests. The utility will, upon the request of a customer, and, if the customer so desires, in his or her presence or in that of his or her authorized representative, make without charge a test of the accuracy of the customer's meter. If the customer asks to observe the test, the test will be made during the utility's normal working hours at a time convenient to the customer.

Whenever possible, the test will be made on the customer's premises, but may, at the utility's discretion, be made at the utility's testing facility. If within a period of two years the customer requests a new test, the utility will make the test, but if the meter is found to be within the accuracy standards established by the American Water Works Association, the utility will charge the customer a fee which reflects the cost to test the meter up to a maximum \$25 for a residential customer. Following the completion of any requested test, the utility will promptly advise the customer of the date of removal of the meter, the date of the test, the result of the test, and who made the test.

Section 2.10 - Billing

(A) Regular Billing

Bills from the utility will be mailed monthly unless otherwise authorized by the Commission. The due date of bills for utility service will be at least sixteen (16) days from the date of issuance. The postmark on the bill or, if there is no postmark on the bill, the recorded date of mailing by the utility will constitute proof of the date of issuance. Payment for utility service is delinquent if full payment, including late fees and the regulatory assessment, is not received at the utility or the utility's authorized payment agency by 5:00 p.m. on the due date. If the due date falls on a holiday or weekend, the due date for payment purposes will be the next workday after the due date.

(B) Late Fees

A late penalty of either \$5.00 or 10.0% will be charged on bills received after the due date. The penalty on delinquent bills will not be applied to any balance to which the penalty was applied in a previous billing. The utility must maintain a record of the date of mailing to charge the late penalty.

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

(C) Information on Bill

Each bill will provide all information required by the PUC rules. For each of the systems it operates, the utility will maintain and note on the monthly bill a local or toll-free telephone number (or numbers) to which customers can direct questions about their utility service.

In the event of a dispute between a customer and a utility regarding any bill for utility service, the utility will conduct an investigation and report the results to the customer. If the dispute is not resolved, the utility will inform the customer that the complaint may be filed with the Commission.

(D) Prorated Bills

If service is interrupted or seriously impaired for 24 consecutive hours or more, the utility will prorate the monthly base bill in proportion to the time service was not available to reflect this loss of service.

Section 2.11- Payments

All payments for utility service shall be delivered or mailed to the utility's business office. If the business office fails to receive payment prior to the time of noticed disconnection for non-payment of a delinquent account, service will be terminated as scheduled.

Utility service crews shall not be allowed to collect payments on customer accounts in the field. Payment of an account by any means that has been dishonored and returned by the payer or payee's bank, shall be deemed to be delinquent. All returned payments must be redeemed with cash or valid money order. If a customer has two returned payments within a twelve month period, the customer shall be required to pay a deposit if one has not already been paid.

Section 2.12 - Service Disconnection

(A) With Notice

Utility service may be disconnected if the bill has not been paid in full by the date listed on the termination notice. The termination date must be at least 10 days after the notice is mailed or hand delivered. If the customer elects to receive electronic communications, the disconnect notice may be emailed in lieu of mailing or hand delivery.

The utility is encouraged to offer a deferred payment plan to a customer who cannot pay an outstanding bill in full and is willing to pay the balance in reasonable installments. However, a customer's utility service may be disconnected if a bill has not been paid or a deferred payment agreement entered into within 26 days from the date of issuance of a bill and if proper notice of termination has been given.

Notice of termination must be a separate mailing or hand delivery in accordance with the PUC Rules.

(B) Without Notice

Utility service may also be disconnected without notice for reasons as described in the PUC Rules.

Tariff Control No. 51035

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

Section 2.13 - Reconnection of Service

Utility personnel must be available during normal business hours to accept payments on the day service is disconnected and the following day unless service was disconnected at the customer's request or due to a hazardous condition.

Service will be reconnected within 36 hours after the past due bill, reconnect fees and any other outstanding charges are paid or the conditions which caused service to be disconnected are corrected.

Section 2.14 - Service Interruptions

The utility will make all reasonable efforts to prevent interruptions of service. If interruptions occur, the utility will re-establish service within the shortest possible time. Except for momentary interruptions due to automatic equipment operations, the utility will keep a complete record of all interruptions, both emergency and scheduled and will notify the Commission in writing of any service interruptions affecting the entire system or any major division of the system lasting more than four hours. The notice will explain the cause of the interruptions.

Section 2.15 - Quality of Service

The utility will plan, furnish, and maintain production, treatment, storage, transmission, and distribution facilities of sufficient size and capacity to provide a continuous and adequate supply of water for all reasonable consumer uses. Unless otherwise authorized by the Commission, the utility will maintain facilities as described in the TCEQ Rules and Regulations for Public Water Systems.

Section 2.16 - Customer Complaints and Disputes

If a customer or applicant for service lodges a complaint, the utility will promptly make a suitable investigation and advise the complainant of the results. Service will not be disconnected pending completion of the investigation. If the complainant is dissatisfied with the utility's response, the utility must advise the complainant that he has recourse through the PUC complaint process. Pending resolution of a complaint, the Commission may require continuation or restoration of service.

The utility will maintain a record of all complaints which shows the name and address of the complainant, the date and nature of the complaint and the adjustment or disposition thereof, for a period of two years after the final settlement of the complaint.

In the event of a dispute between a customer and a utility regarding any bill for utility service, the utility will conduct an investigation and report the results to the customer. If the dispute is not resolved, the utility will inform the customer that a complaint may be filed with the Commission.

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

Section 2.17 - Customer and Utility Liability

Customer shall be liable for any damage or injury to utility-owned property shown to be caused by the customer, his invitees, his agents, his employees, or other directly under his control.

Limitation on Product/Service Liability – Public water utilities are required to deliver water to the customer's side of the meter or service connection that meets the potability and pressure standards of the TCEQ. The utility will not accept liability for any injury or damage to individuals or their property occurring on the customer's side of the meter when the water delivered meets these state standards. The utility makes no representations or warranties (expressed or implied) that customer's appliances will not be damaged by disruptions of or fluctuations in water service whatever the cause.

The utility will not accept liability for injuries or damages to persons or property due to disruption of water service caused by: (1) acts of God, (2) acts of third parties not subject to the control of the utility if the utility has undertaken such preventative measures as are required by TCEQ and PUC rules, (3) electrical power failures in water systems not required by TCEQ rules to have auxiliary power supplies, or (4) termination of water service pursuant to the utility's tariff and the PUC's rules.

The utility is not required by law and does not provide fire prevention or firefighting services. The utility therefore does not accept liability for fire-related injuries or damages to persons or property caused or aggravated by the availability (or lack thereof) of water or water pressure (or lack thereof) during fire emergencies. Utility may (but is not required to) contract with individual customers/applicants to provide water service capacities to their properties in excess of the TCEQ's domestic water system regulations so that such water volumes and pressures may be used by the customer/applicant or local fire department (at their sole election and responsibility) for firefighting purposes. Such additional water services capacities shall be provided only in response to and according to design criteria and/or plans prepared by the customer/applicant's registered professional engineer. Notwithstanding any understanding or intent of such customer/applicant for the use of such excess water service capacity, Utility does not profess, state, warrant, guarantee, or imply that such additional water service capacity is, or shall ever be, adequate or sufficient for firefighting. Utility neither possesses nor claims to possess knowledge or expertise in firefighting or the requirements of firefighting. No statement or action of Utility shall ever be implied or meant to suggest that any facilities of Utility comply with any state or local fire code.

SECTION 3.0 -- EXTENSION POLICY

Section 3.01 - Standard Extension Requirements

Line Extension and Construction Charges: No Contribution in Aid of Construction may be required of any customer except as provided for in this approved extension policy.

The Utility is not required to extend service to any applicant outside of its certified service area and will only do so under terms and conditions mutually agreeable to the Utility and the applicant, in compliance with PUC rules and policies, and upon extension of the Utility's certified service area boundaries by the PUC.

The applicant for service will be given an itemized statement of the costs, options such as rebates to the customer, sharing of construction costs between the utility and the customer, or sharing of costs between the customer and other applicants prior to beginning construction.

Section 3.02 - Costs Utilities and Service Applicants Shall Bear

Within its certified area, the utility will pay the cost of the first 200 feet of any water main or distribution line necessary to extend service to an individual residential customer within a platted subdivision.

However, if the residential customer requesting service purchased the property after the developer was notified in writing of the need to provide facilities to the utility, the utility may charge for the first 200 feet. The utility must also be able to document that the developer of the subdivision refused to provide facilities compatible with the utility's facilities in accordance with the utility's approved extension policy after receiving a written request from the utility.

Residential customers will be charged the equivalent of the costs of extending service to their property from the nearest transmission or distribution line even if that line does not have adequate capacity to serve the customer. However, if the customer places unique, non-standard service demands upon the system, the customer may be charged the additional cost of extending service to and throughout their property, including the cost of all necessary transmission and storage facilities necessary to meet the service demands anticipated to be created by that property.

Unless an exception is granted by the PUC, the residential service applicant shall not be required to pay for costs of main extensions greater than 2" in diameter for water distribution and pressure wastewater collection lines and 6" in diameter for gravity wastewater lines.

Exceptions may be granted by the PUC if:

- adequate service cannot be provided to the applicant using the maximum line sizes listed due to distance or elevation, in which case, it shall be the utility's burden to justify that a larger diameter pipe is required for adequate service;
- or larger minimum line sizes are required under subdivision platting requirements or building codes of municipalities within whose corporate limits or extraterritorial jurisdiction the point of use is located; or the residential service applicant is located outside the CCN service area.

SECTION 3.0 -- EXTENSION POLICY (Continued)

If an exception is granted, the Utility shall establish a proportional cost plan for the specific extension or a rebate plan which may be limited to seven years to return the portion of the applicant's costs for overriding as new customers are added to ensure that future applicants for service on the line pay at least as much as the initial service applicant.

For purposes of determining the costs that service applicants shall pay, commercial customers with service demands greater than residential customer demands in the certified area, industrial, and wholesale customers shall be treated as developers. A service applicant requesting a one inch meter for a lawn sprinkler system to service a residential lot is not considered nonstandard service.

If an applicant requires service other than the standard service provided by the utility, such applicant will be required to pay all expenses incurred by the utility in excess of the expenses that would be incurred in providing the standard service and connection beyond 200 feet and throughout his property including the cost of all necessary transmission facilities.

The utility will bear the full cost of any over-sizing of water mains necessary to serve other customers in the immediate area. The individual residential customer shall not be charged for any additional production, storage, or treatment facilities. Contributions in aid of construction may not be required of individual residential customers for production, storage, treatment or transmission facilities unless otherwise approved by the Commission under this specific extension policy.

Section 3.03 - Contributions in Aid of Construction

Developers may be required to provide contributions in aid of construction in amounts sufficient to furnish the development with all facilities necessary to provide for reasonable local demand requirements and to comply with TCEQ minimum design criteria for facilities used in the production, transmission, pumping, or treatment of water or TCEQ minimum requirements. For purposes of this subsection, a developer is one who subdivides or requests more than two meters on a piece of property. Commercial, industrial, and wholesale customers will be treated as developers.

Any applicant who places unique or non-standard service demands on the system may be required to provide contributions in aid of construction for the actual costs of any additional facilities required to maintain compliance with the TCEQ minimum design criteria for water production, treatment, pumping, storage and transmission.

Any service extension to a subdivision (recorded or unrecorded) may be subject to the provisions and restrictions of 16 TAC § 24.163(d). When a developer wishes to extend the system to prepare to service multiple new connections, the charge shall be the cost of such extension, plus a pro-rata charge for facilities which must be committed to such extension compliant with the TCEQ minimum design criteria. As provided by 16 TAC § 24.161(e)(3), for purposes of this section, commercial, industrial, and wholesale customers shall be treated as developers.

SECTION 3.0 -- EXTENSION POLICY (Continued)

A utility may only charge a developer standby fees for unrecovered costs of facilities committed to a developer's property under the following circumstances:

- Under a contract and only in accordance with the terms of the contract; or
- If service is not being provided to a lot or lots within two years after installation of facilities necessary to provide service to the lots has been completed and if the standby fees are included on the utility's approved tariff after a rate change application has been filed. The fees cannot be billed to the developer or collected until the standby fees have been approved by the PUC.
- For purposes of this section, a manufactured housing rental community can only be charged standby fees under a contract or if the utility installs the facilities necessary to provide individually metered service to each of the rental lots or spaces in the community.

Section 3.04 - Appealing Connection Costs

The imposition of additional extension costs or charges as provided by Sections 3.0 - Extension Policy of this tariff shall be subject to appeal as provided in this tariff, PUC rules, or the rules of such other regulatory authority as may have jurisdiction over the utility's rates and services. Any applicant required to pay for any costs not specifically set forth in the rate schedule pages of this tariff shall be given a written explanation of such costs prior to payment and/or commencement of construction. If the applicant does not believe that these costs are reasonable or necessary, the applicant shall be informed of the right to appeal such costs to the PUC or such other regulatory authority having jurisdiction over the utility's rates in that portion of the utility's service area in which the applicant's property(is) is located.

Section 3.05 - Applying for Service

The Utility will provide a written service application form to the applicant for each request for service received by the Utility's business offices. A separate application shall be required for each potential service location if more than one service connection is desired by any individual applicant. Service application forms will be available at the Utility's business office during normal weekday business hours. Service applications can be sent by mail, email, or fax upon request. Completed applications can be returned by mail, email, or fax.

Where a new tap or service connection is required, the service applicant shall be required to submit a written service application and request that a tap be made. A diagram, map, plat, or written metes and bounds description of precisely where the applicant desires each tap or service connection is to be made and, if necessary, where the meter is to be installed, along the applicant's property line may also be required with the tap request. The actual point of connection and meter installation must be readily accessible to Utility personnel for inspection, servicing, and meter reading while being reasonably secure from damage by vehicles and mowers. If the Utility has more than one main adjacent to the service applicant's property, the tap or service connection will be made to the Utility's nearest service main with adequate capacity to service the applicant's full potential service demand.

SECTION 3.0 -- EXTENSION POLICY (Continued)

Beyond the initial 200 feet, the customer shall bear only the equivalent cost of extending from the nearest main. If the tap or service connection cannot be made at the applicant's desired location, it will be made at another location mutually acceptable to the applicant and the Utility. If no agreement on location can be made, the applicant may refer the matter to the PUC for resolution.

Section 3.06 - Qualified Service Applicant

A "qualified service applicant" is an applicant who has: (1) met all of the Utility's requirements for service contained in this tariff, PUC rules and/or PUC order, (2) has made payment or made arrangement for payment of tap fees, (3) has provided all easements and rights-of-way required to provide service to the requested location, (4) delivered an executed customer service inspection certificate to the Utility, if applicable, and (5) has executed a customer service application for each location to which service is being requested.

The Utility shall serve each qualified service applicant within its certified service area as soon as practical after receiving a completed service application. All service requests will be fulfilled within the time limits prescribed by PUC rules once the applicant has met all conditions precedent to achieving "qualified service applicant" status. If a service request cannot be fulfilled within the required period, the applicant shall be notified in writing of the delay, its cause and the anticipated date that service will be available. The PUC service dates shall not become applicable until the service applicant has met all conditions precedent to becoming a qualified service applicant as defined by PUC rules.

Section 3.07 - Developer Requirements

As a condition of service to a new subdivision, the Utility shall require a developer (as defined by PUC rule) to provide permanent recorded public utility easements as a condition of service to any location within the developer's property.

APPENDIX A -- DROUGHT CONTINGENCY PLAN

“This page incorporates by reference the utility’s Drought Contingency Plan, as approved and periodically amended by the Texas Commission on Environmental Quality.”
