RESPONSES TO REQUESTS FOR INFORMATION

STAFF RFI 1-2 Please provide a full-size map, printed to scale, showing the complete distribution system, for the public water system registered with the Texas Commission on Environmental Quality (TCEQ) under public water system ID 0270141. RESPONSES TO REQUESTS FOR INFORMATION

STAFF RFI 1-3 Please provide the location of any pressure reading devices for all waterlines in the public water system. Include pressure readings and the corresponding reading dates for the year 2020.

RESPONSE: There are no pressure recording devices within the distribution system. There is a manually read pressure gauge at the water plant recorded as part of the normal plant operational check.

Aqua 000437 – Aqua 000440 is a summary from our workorder system that shows the readings at the water plant on the days the routine visits were made with calculations and comments based on my review.

TCEQ did put a recorder in the distribution system for about a week. Their report can be found in the prefiled testimony of Scot Foltz at SF-12 (Aqua 000348 – 000374).
