Adequacy of Existing Service

23. There are no existing customers in the requested area.
24. Water service is not currently being provided to the requested area.

Need for Service

25. There is one commercial property owner, Georgia-Pacific, in the requested area that has requested service from Sweetwater.
26. Sweetwater filed a copy of the water supply agreement between itself and Georgia-Pacific, along with other supporting documentation, demonstrating the need for water service in

the requested area.

Effect of Granting the Amendment

27. Granting the CCN amendment will obligate Sweetwater to provide water service to future customers in the requested area.
28. Granting the CCN amendment will enable Sweetwater to provide water service to Georgia-Pacific in accordance with their water supply agreement.
29. Nearby retail public water utilities were properly noticed, and Bitter Creek was the only retail public utility to intervene.
30. The effects of granting the CCN amendment on Bitter Creek WSC are not adverse to such a degree that granting the CCN amendment would not be in the public interest.

Ability to Serve: Managerial and Technical

31. Sweetwater does not have any unaddressed violations listed in the TCEQ database.

Feasibility of Obtaining Service from Other Utilities

37. Georgia-Pacific, the owner of the requested area, requested service from Sweetwater and executed a water supply agreement with Sweetwater.

Regionalization or Consolidation

38. It will not be necessary for Sweetwater to construct a physically separate water system to serve the area.
39. Because the requested area will not require construction of a physically separate water system, consideration of regionalization or consolidation with another retail public utility is not required.

40. Sweetwater demonstrated it has sufficient unrestricted cash available to cover two years of debt service, satisfying the leverage test.
41. Sweetwater demonstrated that it has sufficient cash available to cover any projected operations and maintenance shortages in the first five years of operations after approval of the CCN amendment, satisfying the operations test. Capital improvements required to provide continuous and adequate service to the requested area will be paid for by Sweetwater, funded by an interlocal agreement between Sweetwater and the Sweetwater Enterprise for Economic Development-Municipal Development District.
42. Sweetwater demonstrated the financial capability and stability to pay for the facilities necessary to provide continuous and adequate service to the requested area.
