Dear Mr. Wyant:

On April 26, 2021, the Texas Commission on Environmental Quality (TCEQ) received planning material with your letter dated April 26, 2021 for the proposed distribution system - Republic Grand Ranch and Deer Forest Deveopment. Based on our review of the information submitted, the project generally meets the minimum requirements of Title 30 Texas Administrative Code (TAC) Chapter 290 - Rules and Regulations for Public Water Systems and is **conditionally approved for construction** if the project plans and specifications meet the following requirement(s):

Dos Aguas (PWS 1700917) does not have adequate plant capacity approved by the TCEQ for the number of connections proposed in the submitted distribution systems. Dos Aguas must increase the approved water treatment plant capacity in accordance with **§290.45** before these lots are developed in order to meet capacity requirements.

The submittal consisted of 7 sheets of engineering drawings and technical specifications. The approved project consists of:

- 9,312 linear feet of 4-inch, American Society for Testing Materials (ASTM) Standard D2241, standard dimension ratio (SDR) 26, polyvinyl chloride (PVC) pipe;
- 13,180 linear feet of 6-inch, ASTM Standard D2241, SDR 26, PVC pipe;
- 201,240 linear feet of 8-inch, ASTM Standard D2241, SDR 26, PVC pipe;
- Service Lines: 1-inch, ASTM Standard D1248, SDR 9, polyethylene; and
- All associated valves, fittings, and appurtenances.

Mr. Brett Wyant, P.E.  
Page 2  
June 3, 2021

This approval is for the construction of the above listed items only. Any wastewater components contained in this design were not considered. The authorization provided in this letter does not relieve a Public Water System from the need to comply with other applicable state and federal regulations.

The Dos Aguas public water supply system provides water treatment.

The project is located at the intersection of Tanyard Road and Farm-to-Market Road 1097 in Montgomery County, Texas.

An appointed engineer must notify the TCEQ's Region 12 Office in Houston at (713) 767-3500 when construction will start. Please keep in mind that upon completion of the water works project, the engineer or owner will notify the commission's Water Supply Division, in writing, as to its completion and attest to the fact that the completed work is substantially in accordance with the plans and change orders on file with the commission as required in 30 TAC §290.39(h)(3).

Please refer to the Plan Review Team's Log No. **P-04262021-179** in all correspondence for this project.

Please complete a copy of the most current Public Water System Plan Review Submittal form for any future submittals to TCEQ. Every blank on the form must be completed to minimize any delays in the review of your project. The document is available on TCEQ's website at the address shown below. You can also download the most current plan submittal checklists and forms from the same address.
