Docket # 51407

Staff - 1. An estimated completion date for the construction of the physical plant,

Answer: The estimated completion date for the construction of the plant is September 20, 2021. While it may be many years before the subdivision is at full capacity all TCEQ requirements will be met for all customers with no problem.

Staff - 2. An estimated date service will begin for all phase of construction;

Answer: The last day of March 2022 is the estimated date construction will be complete and water will be fully available. Water will be available before this date but the plan is to be done with the second plant and the remainder of the distribution by that date.

Staff - 3. Confirmation that the names of the developers who own the requested area are Deer Forest LLC and Republic Grand Ranch LLC as stated in the application

Answer: Correct, confirmation on Republic Grand Ranch LLC, and Deer Forest LLC, being developers as in the application.
