Re: Notification of Name Change – CCN No. 20465
Gulf Coast Waste Disposal Authority to Gulf Coast Authority

Dear Filing Clerk:

Gulf Coast Authority hereby notifies the Public Utility Commission of Texas (“PUC”) that on June 15, 2017, the 85th Legislature of Texas changed the name of Gulf Coast Waste Disposal Authority (“GCWDA”) to Gulf Coast Authority (“GCA”). GCA respectfully requests that the PUC update its records to show GCA as the holder of CCN No. 20465.

GCA is a conservation and reclamation district created pursuant to Chapter 409, Acts of the 61st Legislature of Texas, Regular Session, 1969, as amended. Its name as stated in Chapter 409 was the GCWDA. Senate Bill No. 1489, which became effective on June 15, 2017, amended those sections of Chapter 409 that referenced GCWDA and changed those references to GCA. Senate Bill No. 1489 also added Section 2.015 to Chapter 409. Section 2.015 provides, “A reference in law to the Gulf Coast Waste Disposal Authority means Gulf Coast Authority.” A copy of S.B. No. 1489 is attached.

Because the Texas Legislature changed the name of the CCN holder from GCWDA to GCA by statute, and the statute by which the change was made provides that a reference in law to GCWDA means GCA, GCA is not aware of notice or other requirements that may apply to this name change request.

Thank you for your attention to this request. If you need additional information, please do not hesitate to contact me.

Very truly yours,

AN ACT

relating to the Gulf Coast Waste Disposal Authority.

It is hereby found and declared that the quality of waters in Chambers, Galveston, and Harris Counties is materially affected by the disposal of wastes throughout those counties; that regional approaches to studying water pollution in these counties, to planning corrective and preventive measures, to providing coordinated facilities for waste disposal, and to regulating waste disposal would be far more effective than efforts on a county-wide, city-wide, or smaller scale; that solid wastes, as well as other kinds of waste, may impair water quality by seepage, drainage, and otherwise; that creation of the Gulf Coast ~~[Waste Disposal]~~ Authority would advance the established policy of the state to maintain the quality of the waters in the state consistent with the public health and public enjoyment thereof, the propagation and protection of terrestrial and aquatic life, the operation of existing industries, and the economic development of the state; and that impending shortage of water in the district for beneficial uses requires that all reasonable measures be taken to prevent and abate water pollution, and to reclaim polluted water for beneficial
