NOTICE OF NON-STANDARD TRUE-UP FILING
BY AEP TEXAS INC.

AEP Texas Inc. (“AEP Texas” or the “Company”) hereby provides NOTICE that it filed with the Public Utility Commission of Texas (“Commission”) on November 13, 2020 the NON-STANDARD TRUE-UP FILING OF AEP TEXAS INC. PURSUANT TO THE FINANCING ORDER IN DOCKET NO. 39931. The filing seeks approval of transition charge rates to be calculated and applied beginning with the first billing cycle for the month of March 2021, pursuant to the non-standard true-up provisions of the order issued by the Commission on January 12, 2012 in Docket No. 39931, *Application of AEP Texas Central Company for Financing Order* (the “Financing Order”) and Sections 39.003 and 39.307 of the Texas Utilities Code.

The relief requested in this filing affects all retail electric providers (“REPs”) serving end-use retail electric customers in AEP Texas’ certificated service territory previously served by AEP Texas Central Company (“TCC”) and will affect the retail electric customers of those REPs. Customers potentially affected include those retail customers, whether or not currently receiving transmission and/or distribution service from AEP Texas – Central Division (formerly TCC), whose facilities, premises, and loads are located in AEP Texas’ certificated service area (formerly TCC’s certificated service area) and are being served or have been served by AEP Texas (formerly TCC) at any time on or after May 1, 1999. This filing only affects the AEP Texas – Central Division. The filing has been assigned Docket No. 51518.

On March 14, 2012, Transition Bonds were issued under the Financing Order. The Financing Order establishes how the annual costs permitted to be recovered through transition charges are allocated among customer classes. The non-standard true-up provisions of the Financing Order permit adjustment of the transition charges for each customer class if the forecasted billing determinants for any one or more customer classes are projected to decrease by more than 10% from the billing determinants for the 12 months ending March 31, 2011 (“Base Period”). The billing determinants for the Commercial and Small Industrial – Energy class are forecasted to decrease by more than 10% for the 12 months ending February 2022 when compared to the Base Period.

If the non-standard true up is approved, transition charge rates applicable to all retail customer classes will be affected. The proposed rates for the transition charge classes are as follows:

<u>Transition Charge-3 Customer Class</u>	<u>Initial/Adjusted TC-3 Rates</u>
Residential	\$0.002880 per kWh
Commercial and Small Industrial – Energy	\$0.008740 per kWh
Commercial and Small Industrial – Demand	\$0.865683 per kW or kVa
Large Industrial – Firm	\$0.264268 per kW or kVa
Large Industrial – Non-Firm	\$0.551693 per kW or kVa
Standby – Firm	\$0.071146 per Daily kW or kVa
Standby – Non-Firm	\$0.067541 per Daily kW or kVa
Municipal and Cotton Gin	\$0.004799 per kWh

The deadline for filing a motion to intervene in this proceeding is _____. Additionally, any person who intervenes and would like a hearing on this matter must file a request for hearing with the Commission by _____. The request for a hearing must also include a specific list of issues the person believes should be addressed at the hearing.

The scope of the proceeding will be limited to determining whether the non-standard true-up complies with the Financing Order. The Financing Order requires the Commission to rule upon the Company's request within 90 days or the requested rates will go into effect.
