PUBLIC UTILITY
FILING CLERK

We are requesting to intervene in this sale based on the following reasons, lack of information, and any other un answered, questions in writing.

1 How will this affect our present, and future irrigation and domestic water wells within the proposed and adjacent sale area?

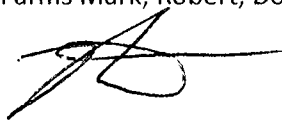

2 Why have-has a considerable part of the present Water well field of the Company been excluded from the sale?

3 Why has a public meeting not been scheduled for the public to comment and question concerns of such a sale?

4 What are the exact consequences of an opt out request?

5 Why were the notices only sent out to present potable water connection recipients. All land owners in and adjacent to the proposed sale parcel, should have been notified. Any other concerns that may have been erroneously omitted.

Thank You Kimpel Farms Mark, Robert, Dolores Kimpel 15260 Socorro Rd Clint TX 79835 915-471-4110
