			]	NFORMA	TIO	NO	N UTILITY S	ERV	ICE						
Tenants are billed	for X	Water	Х	Wastewat	er			х	Subm	eterec	OR		All	located ★★★	
Name of utility providing water/wastewater   Fort Bend County WCID #2															
Date submetered or allocated billing begins (or began) 01/01/2021 Required															
METHOD USED TO OFFSET CHARGES FOR COMMON AREAS Check one line only.															
X Not applicable, because X Bills are based on the tenant's actual submetered consumption															
There are <u>neither</u> common areas <u>nor</u> an installed irrigation system															
All common areas and the irrigation system(s) are metered or submetered:															
We deduct the actual utility charges for water and wastewater to these areas then allocate the remaining charges among															
our tenants.															
This property has an installed irrigation system that is <u>not</u> separately metered or submetered:															
We deduct percent (we deduct at least 25 percent) of the utility's total charges for water and wastewater															
consumption, then allocate the remaining charges among our tenants.															
This property has an installed irrigation system(s) that <u>is/are</u> separately metered or submetered:															
We deduct the actual utility charges associated with the irrigation system(s), then deduct at least 5 percent of the utility's															
total charges for water and wastewater consumption, then allocate the remaining charges among our tenants.															
This property does not have an installed irrigation system:															
We deduct at least 5 percent of the retail public utility's total charges for water and wastewater consumption, and then															
allocate the remaining charges among our tenants.

number of occupants or occupied units.	>3	4.0 + 1.2 for each additional bedroom						
number of occupants of occupied units.	<u>i</u>							
Occupancy and size of rental unit percent (in which no more than 50%) of the utility bill for water/wastewater consumption is allocated using the occupancy method checked above. The remainder is allocated according to either:  • the size of the tenant's dwelling unit divided by the total size of all dwelling units, OR  • the size of the space rented by the tenant of a manufactured home divided by the size of all rental spaces.  Submetered hot water:  The individually submetered hot water used in the tenant's dwelling unit is divided by all submetered hot water used in all dwelling units.								
Submetered cold water is used to allocate charges for hot water provided through a central system:  The individually submetered cold water used in the tenant's dwelling unit is divided by all submetered cold water used in all dwelling units.								
I m. a cannog anno.								
As outlined in the condominium contract. Describe:								
Size of manufactured home rental space:								
The size of the area rented by the tenant divided by the total area of all the size of rental spaces.								
Size of the rented space in a multi-use facility:								

The square footage of the space rented by the tenant divided by the total square footage of all rental spaces.
