**WATERS OF VISTA RANCH WATER SUPPLY CORPORATION AND AQUA WATER
SUPPLY CORPORATION'S RESPONSE TO ORDER NO. 2 AND SUPPLEMENT TO
APPLICATION**

TO THE HONORABLE ADMINISTRATIVE LAW JUDGE:

COMES NOW, Waters of Vista Ranch Water Supply Corporation ("WOVR WSC") and Aqua Water Supply Corporation ("Aqua WSC") (collectively, "Applicants") in the above-referenced matter, and hereby file this Response to Order No. 2 to supplement their Application in order to cure deficiencies described in Commission Staff's Recommendation on Administrative Completeness and Proposed Notice ("Staff's Recommendation"), issued on January 21, 2021, and would respectfully show the following:

I. APPLICATION BACKGROUND

On December 21, 2020, the Applicants filed an application for approval of the sale and transfer of certificate of convenience and necessity ("CCN") rights in Fayette County. WOVR WSC seeks to sell and transfer all of its certificated water service area in CCN Number 12927 to Aqua WSC's CCN Number 10294. The requested sale and transfer includes approximately 681 acres and 28 customer connections.

On December 22, 2020, the Honorable Administrative Law Judge issued Order No. 1 establishing a deadline of January 21, 2021, for the Public Utility Commission ("Commission")

Staff to file comments on the administrative completeness and proposed notice of the Applicant's Application for Sale, Transfer, or Merger of a Retail Public Utility (the "Application").

On January 21, 2021, Commission Staff filed its recommendation on administrative completeness and proposed notice. Commission Staff recommended that the Application be found administratively incomplete due to deficiencies identified in the Application and mapping content, as detailed in the memorandum from Jolie Mathis in the Commission's Infrastructure Division, dated January 21, 2021 (the "Memorandum"). Commission Staff recommended that the Applicants submit additional mapping information by February 22, 2021, to cure deficiencies identified in the Memorandum. On January 22, 2021, the Honorable Administrative Law Judge issued Order No. 2 establishing a deadline of February 22, 2021, for the Applicants to supplement their Application to cure deficiencies as described in the Memorandum. Order No. 2 further established March 24, 2021 as the deadline by which Commission Staff must file a supplemental recommendation regarding the administrative completeness of the Application, with a proposed procedural schedule, if appropriate.

On February 22, 2021, Applicants filed their Request for Extension of Time to file a supplemental application to cure the deficiencies described in Commission Staff's recommendation. On February 23, 2021, in Order No. 3, the Honorable Administrative Law Judge granted the Applicants' Request for Extension of Time and established March 2, 2021 as the new deadline by which Applicants must file a supplemental application to cure deficiencies described in Staff's recommendation. Order No. 3 further established April 1, 2021 as the deadline by which Commission Staff must file a supplemental recommendation regarding the administrative completeness of the Application. On March 3, 2021, Applicants filed their Second Request for Extension of Time to file a supplemental application to cure the deficiencies described in

Commission Staff's recommendation. On March 4, 2021, in Order No. 5, the Honorable Administrative Law Judge granted the Applicant's Second Request for Extension of Time and established March 10, 2021 as the new deadline by which Applicants must file a supplemental application to cure deficiencies described in Staff's recommendation. This pleading is therefore timely filed.

II. APPLICANT'S SUPPLEMENT TO APPLICATION

Commission Staff's recommendation identified the following deficiencies in the Application and requested that the Applicants address the deficiencies by providing the following information:

Uncertified Area:

- 1) Please provide a detailed map identifying the existing facility lines and customers within the requested area referencing parcels, verifiable man-made and natural landmarks such as roads, rivers, and railroads. Please include the following in the requested map: the requested area and parcel lines. Please color code the parcels using the categories listed below (if necessary, provide multiple maps by section, for details to be visible):
 - a. Parcel belonging to a current customer;
 - b. Parcels with requests for service;
 - c. Existing facilities pass through or by the parcel;
 - d. Parcels where a portion is already inside the currently existing CCN; and
 - e. Parcels lying between two parcels that fall under either items 1, 2, 3, or 4 above (Intermediate Parcels).
 - f. Please provide an Excel table corresponding to the map with the following information for each parcel:

Parcel Number/Label	Current Customer (Y/N)	Request for Service (Y/N)	Existing Facilities (Y/N)	Intermediate Parcel (Y/N)
------------------------	------------------------------	---------------------------------	---------------------------------	---------------------------------

Applicants' Response - In order to cure these deficiencies in Item No. 1, the Applicants are providing the attached updated mapping documents and the attached Excel spreadsheet identifying each parcel in the requested uncertified area as **Attachments A and B**, respectively.

- 2) Please provide a written explanation supporting the need for service for any parcel in the requested area that does not contain current customers or existing facilities, does not have a pending request for service, and is not located in between parcels that contain current customers or existing facilities or have a pending request for service.

Applicants' Response - There is a need for service for every parcel in the requested area to enable the property owners to become part of and receive water supply from a centralized and regionalized water supply entity, such as Aqua WSC. The groundwater resources in the Fayette County area, including the Carrizo-Wilcox Aquifer, are under increasing stress as more and more people move into the area and drill groundwater wells to meet their water supply needs. By enabling a regional water supplier, such as Aqua WSC, to plan for and provide water supply service to the parcels in the requested area through a centralized water distribution system will enable the property owners of parcels within the requested area to receive high quality water on a consistent basis while also reducing the stress on the groundwater resources in the area.

- 3) Provide a written narrative supporting the need for service for the entire requested area as shown on the detailed map and table.

Applicants' Response - Aqua WSC is a large water supply corporation with over 23,000 members that has the financial, managerial, and technical ability to provide water service to the entire requested area. With Aqua WSC requesting PUC approval to assume responsibility for the WOVW WSC, it seemed logical for Aqua WSC to obtain all of the uncertificated service area in the proximity of the current WOVW WSC CCN service area for Aqua WSC's planning purposes. If Aqua WSC knows that it will be responsible for providing retail water service in the currently uncertificated service area, then Aqua WSC can conduct long term financial and operational planning to be able to serve the requested area. In addition, Aqua WSC contacted the other nearby

water supply entity, Fayette County Water Supply Corporation, whose retail water CCN service area is adjacent to the requested area and Fayette County WSC approved of Aqua WSC obtaining the requested area and providing retail water area to the requested area.

- 4) Provide the number of current customer connections and requests for service in the requested areas.

Applicants' Response - The Applicants provide the attached list of customer connections in the Waters of Vista Ranch system as **Attachment C**. There are currently 28 customer connections for the WOVR WSC as demonstrated on the attached customer list for WOVR WSC. There are no current requests for service in the requested area.

III. REQUEST FOR RELIEF

Based on the foregoing, and subject to Commission Staff's review and recommendation, the Applicants respectfully request issuance of an order finding the Application complete and sufficient with the filing of this supplemental information.

Respectfully submitted,

/s/ Ty H. Embrey
