This matter has been abated since January 7, 2022. During that time, the parties have been filing periodic status reports. On October 2, 2023, the City of Anna filed 539 pages of “additional information,” but did not ask for the abatement to be lifted, did not ask for any action to be taken in this matter, and did not explain whether the additional information is intended to constitute supplemental information for the city’s application.
