Public Utility Commission of Texas
Project No. 51705

LEP or Project Number	Project Name	Location (County/Zip)	Construction Description	Estimated Annual Date	Estimated Construction Cost	Date Brought On-Line/Available	Initial Estimated Project Date/Time	Final Estimated Project Cost (Ftoll)	Final Estimated Project Cost (Ftoll)	Percent Complete	Existing Voltage	Logistics on New Voltage	Conductor Type & Size & Bundling	Structure Type(s)	Existing ROW Width (feet)	Existing ROW Length (feet)	Access Point (Mile Post)	Year ROW Length (Mile)	Notes/Status in PUC Control Number	Comments	
LSTDP0003	Phantom Hill Station	Jones	Construction of new 150KV substation and 150KV transmission line to connect to existing 150KV transmission line to Phantom Hill Station. New Substation Construction to be completed by 12/31/2009.	12/31/2009	\$900K	10/15/2009		\$15,000,000		100%	345	N/A	0.22	3x362 150K 70kVAC ACSR/70	Steel pole-mounted open concrete poles	100	0	N/A	N/A	25 1010 25 1010 25 1010	Already project engineering/land
LSTDP0004	Emergency 1500 Substation	Norwalk	Replacement of obsolete 1500 and related transmission-related equipment due to emergency	4/30/2010	400K	4/29/2010		\$410,000		100%	345	0	2x362 150K 70kVAC ACSR/70	Steel pole-mounted pole	120	0	N/A	N/A	25 1010 25 1010 25 1010	Already project engineering/land	
LSTDP0005	Lafayette Station	Caldwell	Construction of a new 345KV substation and 345KV transmission line to connect to existing 345KV transmission line to Lafayette Station. New Substation Construction to be completed by 12/31/2009.	12/31/2009				\$23,200,000		70%	345	0.04	2x362 150K 70kVAC ACSR/70	Steel pole-mounted open concrete poles	100	0	N/A	N/A	25 1010 25 1010 25 1010	Not a project, work on LEP's own's project	
LSTDP0006	Rocky Mountain Substation	Essex	Construction of new 345KV substation and 345KV transmission line to connect to existing 345KV transmission line to Rocky Mountain Substation. New Substation Construction to be completed by 12/31/2009.	12/31/2009				\$23,200,000		70%	345	0.04	2x362 150K 70kVAC ACSR/70	Steel pole-mounted open concrete poles	100	0	N/A	N/A	25 1010 25 1010 25 1010	Not a project, work on LEP's own's project	
LSTDP0007	Rocky Mountain Substation	Essex	Construction of new 345KV substation and 345KV transmission line to connect to existing 345KV transmission line to Rocky Mountain Substation. New Substation Construction to be completed by 12/31/2009.	12/31/2009				\$23,200,000		70%	345	0.04	2x362 150K 70kVAC ACSR/70	Steel pole-mounted open concrete poles	100	0	N/A	N/A	25 1010 25 1010 25 1010	Not a project, work on LEP's own's project	
LSTDP0008	Rocky Mountain Substation	Essex	Construction of new 345KV substation and 345KV transmission line to connect to existing 345KV transmission line to Rocky Mountain Substation. New Substation Construction to be completed by 12/31/2009.	12/31/2009				\$23,200,000		70%	345	0.04	2x362 150K 70kVAC ACSR/70	Steel pole-mounted open concrete poles	100	0	N/A	N/A	25 1010 25 1010 25 1010	Not a project, work on LEP's own's project	
LSTDP0009	Rocky Mountain Substation	Essex	Construction of new 345KV substation and 345KV transmission line to connect to existing 345KV transmission line to Rocky Mountain Substation. New Substation Construction to be completed by 12/31/2009.	12/31/2009				\$23,200,000		70%	345	0.04	2x362 150K 70kVAC ACSR/70	Steel pole-mounted open concrete poles	100	0	N/A	N/A	25 1010 25 1010 25 1010	Not a project, work on LEP's own's project
