Re: Our File No.: 04000-000001

Dear Sir or Madam:

Please be advised that Denenberg Tuffley, PLLC represents the subrogation interests of various property Insurers in connection with damages suffered by their respective Insureds during Winter Storm Uri (February 2021). Pursuant to §101.101 of the Tex. Civ. Prac. & Rem. Code ("Tort Claims"), this correspondence will serve to place the Electric Reliability Council of Texas ("ERCOT") and various municipal power generators listed on the attached "Service List," including their agents and employees, on notice of claims brought on behalf of our Clients.¹

Please see the attached spreadsheets which include the most accurate, up-to-date information available at this time. The loss amounts are based on information as currently known, and that these numbers are subject to change based on the ongoing coverage analyses and ongoing adjustments. Pursuant to § 101.101(a)(1-3), relative to each claim stated on the spreadsheets, the "damage or injury claimed" consists of property damage, including damage to the structure and contents therein, and loss of income, and the dollar values of the damages are identified for each claim on the spreadsheet. The "place of the incidents" are identified on the spreadsheets, and for each and every claim, the "time of the incident" is during Winter Storm Uri in February 2021. Finally, with respect to each claim on the spreadsheet, the description of "the incident" is as follows:

During a cold weather event, ERCOT and various power generators, suppliers, or distributors, both municipal and privately owned caused blackouts which left the Insureds without power. Due to the loss of power, the Insureds sustained property damage or other losses arising from freezes which occurred because of an inability to maintain heat and/or operate the buildings' systems to prevent cold-weather related damages.

Should you require additional information and/or clarification, please send a written request to DTFreezeLossTeam@dt-law.com within 30 days. Failure to make written request for information and/or clarification shall be construed as an acceptance of the Notice of Claim as written, thus ERCOT and the various municipal power generators will be estopped from claiming any deficiencies regarding the notice.

¹ This notice does not admit or otherwise infer that ERCOT, PUC, or other entities in receipt of this letter are governmental entities entitled to immunity. This notice serves only to protect any and all claims against those entities under the statute to the extent it is treated as a government entity.
