RECEIVED
2021 MAR -5 AM 10:02
PUBLIC UTILITY COMMISSION
FILING CLERK

To the representatives of PUCT.

I, as a utility consumer am asking PUCT to take action to cap ancillary costs at a maximum of \$9,000/MWh effective immediately during the open meeting on Friday, March, 5, 2021. I, the consumer am asking ERCOT to claw back ancillary fees from generators that did not perform.

As a consumer, I should not be held responsible with exorbitant ancillary costs to compensate for negligent behavior or lack of oversight on ERCOT'S part.

Thank you for considering my position as a utility consumer.
