**SUPPLEMENTAL RESPONSE TO STAFF'S REQUEST FOR DOCUMENTATION**

**QUESTION 3d:**

**Please provide the following:**

**Number and size of meters.**

**Response:**

The water system has 20 meters. CSWR Texas has not yet identified records or information regarding the size of each meter.

**Supplemental Response:**

After completing a cycle of reading meters, CSWR Texas discovered two unauthorized water connections. CSWR Texas is converting these into metered connections, which will increase the number of meters to 22.

**DOCKET NO. 51843**

**SUPPLEMENTAL RESPONSE TO STAFF'S REQUEST FOR DOCUMENTATION**

**QUESTION 3e:**

**Please provide the following:**

**Total gallonage billed to customers for one month of service.**

**Response:**

Due to complications arising from Winter Storm Uri, CSWR Texas has not yet been able to calculate the total gallonage billed to customers for one month of service. CSWR Texas's operators are currently reading the meters to gather this information, and CSWR Texas will supplement this response as soon as the information is compiled.

**Supplemental Response:**

After completing a cycle of reading meters, CSWR Texas has determined that it will bill for 86,837 gallons for one month of service. CSWR Texas also discovered that two people had hooked up unauthorized water connections to their premises. CSWR Texas is adding meters for these premises, and adding to the customer count, but the previous usage for these connections could not be determined because there was not yet a meter.
