Requested Area of CCN# 11144 to be Transferred to CCN# 11303 - Location Map

Requested Area of CCN# 11144 to be Transferred to CCN# 11303

Supplement Pertaining to Docket 51863, Order #2

Relating to the administratively incomplete mapping content provided in the petition filed on 3/2/2021:

- Differences between the tract acreages of application Exhibit A4 and those included in the GIS data provided with the initial submission, are the result of the previous inclusion of 0.05 acres of Tract 1 and 0.06 acres of Tract 2 in the requested CCN Transfer Area of PUC Docket 50903 (combined acreage difference of 0.11 acres). This 0.11 combined acreage was excluded from the parcel boundaries in the GIS data originally submitted for Docket 51863 as it represents a portion of transfer area requested and reviewed in the earlier docket. The total acreage of the 3 tracts as submitted by Pflugerville GIS, excluding the 0.11 acres acknowledged above, is approximately 4.96 acres. Included in the 4.96 acres as submitted by Pflugerville GIS is: 1.68 acres for Tract 1, 2.78 acres for Tract 2, and 0.5 acres for Tract 3.
- At order of the PUC, the maps submitted with the petition filed 3/2/2021 have been revised and are included as part of this supplement for resubmission.
