Reply: Docket No. 51870

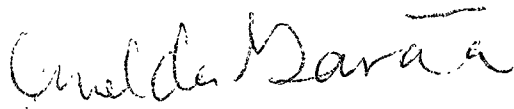

Public Utility Commission

P.O. BOX 13326

Austin, TX 78711-3326

In response to notice concerning the application for Forest Glen Utility Company post marked April 15th 2021 received on April 19, 2021 the notice was to neighboring landowners, customers to which I am. It states Forest Glen Utility has filled application to amend its Certificate of Convenience and Necessity (CCN) No 21070 for the provision of retail water utility service in Medina County, Texas.

I reside at 159 Cascade Trail, Castroville, TX 78009, the Forest Glen Utility Company is directly adjacent to my home property. In accordance with the notice, I respectfully request to intervene in the proceeding and therefore formally request a public hearing to be scheduled. As a direct homeowner that lives very close to the existing Forest Glen Utility plant, I have many concerns and have addressed them to Forest Glen Utility company (Bill Fry) and have been pushed off and no action has been done to remedy the tormenting new sound the plant currently gives off as they increased the tanks and the blowers/ equipment. There are many other issues that stem since 2019. Once the formal hearing is set evidence can be presented that address my specific concerns regarding the filled request to amend the CCN No. 21070 by Forest Glen Utility on Docket No. 518870
