**RE:** **Projects Nos. 51890 and 52938**  
Filing of Annual Reports for Line Inspection and Safety Pursuant to 16 TAC § 25.97(f)

---

Under Public Utility Regulatory Act § 38.102(d)-(f) and 16 Tex. Admin. Code § 25.97(f), each electric utility, municipally owned utility, or electric cooperative that owns or operates overhead transmission facilities greater than 60 kilovolts or distribution facilities greater than 1 kilovolt must submit to the Commission an annual report for the preceding calendar year. The information that must be reported depends on the voltage of the overhead transmission or distribution facilities. Such reports are due by May 1 for information related to the previous calendar year. The Commission-approved form for such reports is available on the Commission's website.<sup>1</sup> The Commission will open a new project each year for the filing of reports due that year.

Commission staff opened Project No. 52938, *CY 2021 Annual Power Line Inspection & Safety Report*, for entities to file reports for calendar year 2021. These reports are due no later than May 1, 2022.

Please note, if an entity has changed its training materials, those updates should be filed in accordance with 16 TAC § 25.97(d) in Project No. 50595, *Training Reports for Line Inspection and Safety*.
