This is a response for the requested clarification.  
(attached to file)

The number of water customers is correct on both docket applications; 215 customers for the docket with the 3 PWS and on the other docket application 25 customers for the 1 PWS (Aledo Ridge); which make a grand total of **240** customers.

Also Palo Duro Service Co., Inc. is requesting that their is only one docket total and should be consolidated into one.
