RE: Docket No. 52084 – *Application of Caney Creek Utilities for a Class D Rate Adjustment*

Dear Mr. Mohr,

On May 4, 2021, Caney Creek Utilities (Caney Creek) filed an application for a Class D rate adjustment with the Public Utility Commission of Texas (Commission). In order to complete Staff's review of the application, Staff requests additional information. Specifically, Staff requests that Caney Creek address the following deficiencies:

- On page 2 of the application, the "minimum gallons included" was not provided in the Water section (see the box in the top left corner of the Water section).
- On page 2 of the application, the words "flat rate" should be included in the Sewer section (see the box in the top left corner of the Sewer section).
- On page 4 of the application, please amend the Notice to show the "Date Meters are Read."

You may not implement the rate increase or provide notice of the rate increase to your customers until the Commission indicates that your application has been approved.

In order to ensure timely review of your application, please file the additional information requested above no later than 10 business days from the date listed at the top of this letter. Please do not email the information directly to me. If you have any questions, you can contact me at (512) 936-7388 or [Forrest.Smith@puc.texas.gov](mailto:Forrest.Smith@puc.texas.gov).

Sincerely,

Forrest Smith
