EL PASO ELECTRIC COMPANY'S AMENDED RESPONSE TO
CITY OF EL PASO'S FIRST REQUEST FOR INFORMATION
QUESTION NOS. CEP 1-1 THROUGH CEP 1-28

CEP 1-7:

Please provide copies of each EPE wholesale power sale agreement that was in effect during the test year period and identify each such agreement that was not a full requirements sale with cost-based regulated charges.

AMENDED RESPONSE:

Agreements under which El Paso Electric Company ("EPE") engaged in wholesale power sale transactions included:

- WSPP Agreement dated September 24, 2019
- WSPP Agreement dated July 28, 2020
- Power Purchase and Sale Agreement between Freeport-McMoran Copper and Gold Energy Services, LLC (formerly Phelps Dodge Energy Services, LLC) and El Paso Electric Company dated December 16, 2005
- EPE-RGEC Power Sales Agreement between El Paso Electric Company and Rio Grande Electric Cooperative, Inc. effective date April 1, 2008
- Edison Electric Institute's (EEI) Version 2.1 (modified 4/25/00)-Shell Master Agreement effective date May 3, 2010

The EPE-RGEC Power Sales Agreement is for Full Requirements Wholesale Electric Service to Rio Grande Electric Cooperative, Inc. and is EPE's only full requirements sale with cost-based regulated charges. Transactions pursuant to the other agreements listed above were not full requirements sales with cost-based regulated charges and were transacted under EPE's market-base rate tariff at market-based rates.

Because the original CEP 1-7, Attachment 1, is accurate but also voluminous, over 500 pages, this response incorporates that original attachment with the CEP 1-7-Amended, Attachment 1, update for this response.

CEP 13-10 Attachment 1-Amended contains charges for one contract (the EEI contract with Shell) that was inadvertently omitted from EPE's original response to CEP 1-7.
