At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through September 30, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

**Video Transcript**

## Company Summary

Columbus, OH-based American Electric Power Company, Inc. is a public utility holding company, which, through directly and indirectly owned subsidiaries, generates, transmits and distributes electricity, natural gas and other commodities. The company was incorporated in 1906. It is one of the largest integrated utilities in the United States, serving more than 5.5 million customers in 11 states. It has roughly 24,400 MW of generating capacity, of which almost 49.6% are coal-fired as of Dec. 31 and nearly 40,000 miles of electricity transmission system network. Its service area covers Arkansas, Indiana, Kentucky, Louisiana, Michigan, Ohio, Oklahoma, Tennessee, Texas, Virginia and West Virginia. Approximately 70% of ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through September 30, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

## Company Summary

Jackson, MI-based CMS Energy Corporation (CMS), founded in 1886, is the holding company of Consumers Energy Company (Consumers) and CMS Enterprises Company (Enterprises). Consumers is an electric and gas utility company that provides electricity and natural gas to residents of Michigan, and serves customers in all 68 counties of Michigan's Lower Peninsula. The Enterprises segment, through its subsidiaries and equity investments, is engaged primarily in independent power production.

CMS Energy operates principally in three business segments: Consumers electric utility, Consumers gas utility and Enterprises.

Consumers electric utility serves ...

## Company Summary

Founded in 2017, Evergy, Inc., through its operating subsidiaries Kansas City Power & Light Company (KCP&L) and Westar Energy, Inc., provides clean, safe and reliable energy to 1.6 million customers in Kansas and Missouri. The company, along with its subsidiaries, has 15,373 megawatts (MWs) of owned generating capacity and renewable power purchase agreements. The company projects peak summer demand for 2021 to be 10,300 MWs, supported by the existing generation assets and power purchases.

The company owns, operates and maintains more than 52,800 miles of distribution lines, which include 39,800 circuit miles of overhead distribution lines, ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.60% per year. These returns cover a period from January 1, 1988 through September 30, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

## Company Summary

Honolulu-based Hawaiian Electric Industries Inc., incorporated in 1981, is a holding company with subsidiaries engaged in the electric utility, banking and other businesses operating primarily in the state of Hawaii.

Electricity is provided by the company's three subsidiaries: The Hawaiian Electric Co. (HECO), Maui Electric Co. (MECO) and Hawaiian Electric Light Co. (HELCO). These utilities are engaged in the production, transmission, distribution, and sale of electricity, serving 95% of Hawaii's population, as the sole public electricity provider on the islands of Hawaii, Oahu, Maui, Lanai, and Molokai.

## Company Summary

Headquartered in Boise, ID, IDACORP, Inc. is a regulated utility formed in 1998. The company is engaged in the transmission, distribution and sale of electricity services in southern Idaho and eastern Oregon through its primary subsidiary Idaho Power Company (Idaho Power). IDACORP served 587,000 retail customers as of Dec 31, 2020.

Idaho Power's asset base includes 17 hydroelectric generating plants in southern Idaho and eastern Ohio, 3 natural gas-fired generation facilities in southern Idaho, one diesel-powered generator, and interests in two coal-fired steam electric generating plants in Wyoming and Nevada. Out of its total 12,795 MW system generation ...

## Company Summary

Incorporated in 1995, Oklahoma City, OK-based OGE Energy Corp. provides energy and offers physical delivery and related services for both electricity and natural gas, primarily in the south central United States. It is the parent company of Oklahoma Gas and Electric Company ("OG&E") and holder of a 26.3% limited partner interest and 50% general partner interest in Enable Midstream Partners. OG&E is the largest electric utility in Oklahoma and its franchised service territory the Fort Smith, AR area. With about 7,122 megawatts of capacity, the company's generation portfolio represents a balanced approach to ...

At the center of everything we do is a strong commitment to independent research and sharing its profitable discoveries with investors. This dedication to giving investors a trading advantage led to the creation of our proven Zacks Rank stock-rating system. Since 1988 it has more than doubled the S&P 500 with an average gain of +25.35% per year. These returns cover a period from January 1, 1988 through October 4, 2021. Zacks Rank stock-rating system returns are computed monthly based on the beginning of the month and end of the month Zacks Rank stock prices plus any dividends received during that particular month. A simple, equally-weighted average return of all Zacks Rank stocks is calculated to determine the monthly return. The monthly returns are then compounded to arrive at the annual return. Only Zacks Rank stocks included in Zacks hypothetical portfolios at the beginning of each month are included in the return calculations. Zacks Ranks stocks can, and often do, change throughout the month. Certain Zacks Rank stocks for which no month-end price was available, pricing information was not collected, or for certain other reasons have been excluded from these return calculations.

**Video Transcript**

## Company Summary

Phoenix, AZ-based Pinnacle West Capital Corporation was incorporated in 1985. The company provides electricity services (wholesale or retail) in the state of Arizona through its subsidiaries. The company is involved in the generation, transmission and distribution of electricity from coal, nuclear, gas, oil and solar.

The company's only reportable segment is Regulated Electricity. The company derives 100% of its earnings from this segment. The Regulated Electricity segment consists of traditional regulated retail and wholesale electricity businesses and related activities. It includes electricity generation, transmission and distribution.

**Video Transcript**

## Company Summary

Portland General Electric, headquartered in Portland, Ore., is a vertically integrated electric utility that serves residential, commercial and industrial customers in Oregon. The company has more than a century of experience in power delivery. PGE generates power from a diverse mix of resources, including hydropower, coal and natural gas. PGE also participates in the wholesale market by purchasing and selling electricity and natural gas to utilities and energy marketers.
