**ORDER NO. 1
REGARDING INFORMATIONAL FILING AND CLOSING PROJECT**

This Order addresses the June 10, 2021 notice and included maps, filed by CSWR-Texas Utility Operating Company, LLC, regarding extension into to an area contiguous to and already served by CSWR-Texas under certificate of convenience and necessity (CCN) number 13290. Under Texas Water Code § 13.243 and 16 Texas Administrative Code (TAC) § 24.229(a)(1)(A), a retail public utility is not required to secure a CCN for an extension into contiguous territory already served by the retail public utility if the point of ultimate use is within one-quarter mile of the boundary of the retail public utility’s certificated area and the area is not receiving similar service from another retail public utility and is not within the CCN of another retail public utility. The retail public utility must inform the Commission of the extension by submitting, within 30 days of the date service is commenced, the map of the service area clearly showing the extension accompanied by a written explanation of the extension in accordance with 16 TAC § 24.229(a)(1)(B).

The administrative law judge finds CSWR-Texas to have filed the notice in compliance with the requirements of 16 TAC § 24.229(a)(1)(A) and (B); therefore, this project is closed.

Signed at Austin, Texas the 29 day of June 2021.
