Re: Extension request for Emergency Preparedness Plan
PWIS # 2350006

We are requesting an extension for submitting the emergency preparedness plan for Victoria Co. WCID#2 due to construction issues. We received a grant to update the equipment and buildings at our water treatment plant. Unfortunately, due to COVID-19 and supply chain issues, the improvements were not completed according to schedule. The concrete subcontractor ghosted our contractor, Udelhoven, and a new subcontractor has been found but is going thru the governmental approval process to work on this project. We hope to have the slab poured next week which will lead to the installation of the new building and new equipment. Once the new equipment is installed, I should have the needed information to complete the emergency preparedness plan concerning kw requirements, etc, of the equipment. We do have a permanent emergency generator on-site and are on the utilities critical load list.

If you need further information, please contact me at victcowcid2@yahoo.com.

Sincerely,

Frances Grubert
Office Manager
Victoria County WCID#2
