Residential Owner Commercial Tenant

The Exempt Utility agrees to sell and deliver water to the Applicant and the Applicant agrees to purchase and receive water from the Utility in accordance with the rules and regulations required by the Public Utility Commission of Texas which are included in its Exempt Utility Tariff and any other rules or requirements contained in this agreement.

Water will Will not be disinfected. Water will will not be measured by meters which are furnished, installed, owned and maintained by the Utility. The meter and/or connection is for the sole use of the Applicant/Customer to serve water to one dwelling, business or property. The Applicant/Customer shall not share, resell, or submeter water to any other dwelling, business, property, etc., without the specific written authorization of the Utility and in compliance with applicable laws and regulations.

The Utility has the right to locate a water service meter/connection and the pipe necessary to connect the meter to the utility's water main on the property of the Applicant at a point mutually agreeable to both the Utility and the Applicant. The Applicant/Customer will allow the Utility access at all reasonable times to its property and equipment located upon Applicant/Customer's premises for the limited purposes of reading the water meter, repairing or replacing existing facilities and the inspection of the Applicant/Customer's facilities to check for illegal connections or unsafe plumbing practices or cross-connections, in compliance with the requirements of the Texas Commission on Environmental Quality's "Rules and Regulations for Public Water Systems."

The Applicant will install, at his own expense, a service line from the water meter/connection to the Applicant's point of use which includes /does not include a cutoff valve on the Applicant's side of the water meter/connection. The Applicant/Customer will be responsible for maintenance and repair of the Applicant/Customer's service line. The Applicant/Customer shall hold the Utility harmless from any and all claims or demands for damage to real or personal property occurring from the point the Applicant/Customer ties on the water meter/connection to the final destination of the line installed by Applicant/Customer.

The Applicant agrees to grant to the utility an easement/right-of-way for the purpose of installing, maintaining and operating such pipe lines, meters, valves, and any other equipment which may be deemed necessary for the provision of Utility service to that Applicant/Customer. The utility will attempt to restore the Applicant/Customer's property to its original condition after installation or repairs. This easement may be in such form as is required by the utility. The Applicant/Customer agrees not to interfere with the utility's employees in the discharge of their duties. The Applicant/Customer will not permit anyone except the utility's employees to tamper with or interfere with any of the utility's equipment installed on the Applicant/Customer's premises.

Non-standard Service

Will the Applicant's use of water place unique, non-standard service demands upon the system or require any special facilities? No Yes. If yes, please describe:

OTHER AGREEMENTS OR REQUIREMENTS FOR SERVICE

The service applicant has been provided a copy of the utility's exempt utility tariff and agrees to pay the rates in the tariff and abide by the requirements in this service agreement. This utility is exempted from most of the requirements for water utilities as long as service is provided in accordance with the exempt utility tariff. The commission will not review rate changes by the utility unless it receives written protests from at least 50% of the customers within 90 days after the effective date of a rate change.

The Exempt Utility agrees to sell and deliver water to the Applicant and the Applicant agrees to purchase and receive water from the Utility in accordance with the rules and regulations required by the Public Utility Commission of Texas which are included in its Exempt Utility Tariff and any other rules or requirements contained in this agreement.

Water will Will not be disinfected. Water will will not be measured by meters which are furnished, installed, owned and maintained by the Utility. The meter and/or connection is for the sole use of the Applicant/Customer to serve water to one dwelling, business or property. The Applicant/Customer shall not share, resell, or submeter water to any other dwelling, business, property, etc., without the specific written authorization of the Utility and in compliance with applicable laws and regulations.

The Utility has the right to locate a water service meter/connection and the pipe necessary to connect the meter to the utility's water main on the property of the Applicant at a point mutually agreeable to both the Utility and the Applicant. The Applicant/Customer will allow the Utility access at all reasonable times to its property and equipment located upon Applicant/Customer's premises for the limited purposes of reading the water meter, repairing or replacing existing facilities and the inspection of the Applicant/Customer's facilities to check for illegal connections or unsafe plumbing practices or cross-connections, in compliance with the requirements of the Texas Commission on Environmental Quality's "Rules and Regulations for Public Water Systems."

The Applicant will install, at his own expense, a service line from the water meter/connection to the Applicant's point of use which includes /does not include a cutoff valve on the Applicant's side of the water meter/connection. The Applicant/Customer will be responsible for maintenance and repair of the Applicant/Customer's service line. The Applicant/Customer shall hold the Utility harmless from any and all claims or demands for damage to real or personal property occurring from the point the Applicant/Customer ties on the water meter/connection to the final destination of the line installed by Applicant/Customer.

The Applicant agrees to grant to the utility an easement/right-of-way for the purpose of installing, maintaining and operating such pipe lines, meters, valves, and any other equipment which may be deemed necessary for the provision of Utility service to that Applicant/Customer. The utility will attempt to restore the Applicant/Customer's property to its original condition after installation or repairs. This easement may be in such form as is required by the utility. The Applicant/Customer agrees not to interfere with the utility's employees in the discharge of their duties. The Applicant/Customer will not permit anyone except the utility's employees to tamper with or interfere with any of the utility's equipment installed on the Applicant/Customer's premises.

Non-standard Service

Will the Applicant's use of water place unique, non-standard service demands upon the system or require any special facilities? No Yes. If yes, please describe:

OTHER AGREEMENTS OR REQUIREMENTS FOR SERVICE

The service applicant has been provided a copy of the utility's exempt utility tariff and agrees to pay the rates in the tariff and abide by the requirements in this service agreement. This utility is exempted from most of the requirements for water utilities as long as service is provided in accordance with the exempt utility tariff. The commission will not review rate changes by the utility unless it receives written protests from at least 50% of the customers within 90 days after the effective date of a rate change.
