Re: Project 52299

To whom it may concern,

The Greater Texoma Utility Authority (GTUA) owns and operates a wholesale treated water distribution system located in northern Collin County and southern Grayson County. This system receives treated water at our pump station, which is a critical load facility, located at 3944 McDonald McKinney TX, 75071. From there, the water is moved through a pipeline that passes through Melissa, Anna, Van Alstyne and terminates in Howe. This system serves water to approximately 35,000 people.

Listed below are the contacts for the system:
