Re: City of Allen – Notification of Critical Load Status Facilities, SB3

Dear PUC,

The City of Allen is formally submitting this Critical Load Status Letter for compliance with the required information under Senate Bill 3, of the 87<sup>th</sup> Legislature and Texas Water Code (TWC) 13.1396 and being defined as an affected utility by TWC 13.1394.

The City of Allen (PWS #0430025) provides water distribution and sewer collection within the City limits. This system consists of approximately 502 miles of water main, 381 miles of sewer main, five (5) ground storage tanks, five (5) elevated storage tanks, six (6) lift stations, two (2) pump stations, and one (1) pressure plans. The system's water service produces an Average Daily Demand (ADD) of approximately 16.143 Million Gallons per Day (MGD).

Enclosed:

Table 1 lists the emergency contact information for the City of Allen.

Table 2 provides the name, location, and description of each critical load water and sewer facility for the City of Allen's water distribution and sewer collection system.

Please contact me at 214-509-4502 if you have any questions or need any additional information.

Sincerely,

John Phillips

Assistant Director of Community Services
