Project 52299 Affected Utility Critical Facility

Facility operator was not aware of this requirement. Did not see any notices from TCEQ.

This facility has since joined a water association to keep up to date with such requirements.

Bentsen Grove Resort PWS #1080219

We are a 55+ RV park and electric power is critical to residents that rely on oxygen machines.

The mailing address is 1645 S Bentsen Palm Dr #F43 Palmview TX 78572.

The service address is 810 N Bentsen Palm Dr Mission TX 78572

The park is serviced by two groundwater wells that are powered by electricity.

Water operator is Bob Oberstadt Class C license #WG0017043.

AEP Texas Application for Critical Load Industrial or Critical Load Public Safety Designation

SEND COMPLETED FORM TO: CriticalLoadAEPTX@aep.com

This Application should be completed in order to request the designation of Critical Load Industrial Customer or Critical Load Public Safety Customer with AEP Texas, as defined below. The Application must be submitted to AEP Texas at the email address above. Do not include premises served by another utility in this Application.

Critical Load Public Safety Customer -- A customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewater facilities.

Critical Load Industrial Customer – An industrial customer for whom an interruption or suspension of electric service will create a dangerous or life-threatening condition on the retail customer's premises, is a "critical load industrial customer."

Designation of Critical Load does not guarantee an uninterrupted supply of electricity. It is the responsibility of the customer to make arrangements for alternative sources of electric power should a localized outage or load shed event occur.

AEP Texas may request more information prior to implementing a designation.
