RE: Texas Senate Bill 3 Filing Requirements – Project 52299 for Affected Utilities

Dear Public Utility Commission of Texas,

As the designated affected utility providing water and wastewater service for the City of Austin, Austin Water is submitting information to your agency for filing pursuant to the requirements of Senate Bill 3 of the Texas 87<sup>th</sup> Legislature and Texas Water Code §13.1396. Austin Water's main public water system (PWS) is registered as the "City of Austin Water & Wastewater" PWS ID No. TX2270001 with the Texas Commission on Environmental Quality (TCEQ) and the wastewater system is also permitted by the TCEQ. Austin Water also operates the Emma Long Metro Park PWS, which is registered as PWS ID No. TX2270171 with the TCEQ. The documents attached include emergency contact information and all of the water and wastewater facilities that should qualify for critical load status with our electrical providers.

Austin Water will also file this information as required with each of our electrical providers, the offices of emergency management for Travis and Williamson Counties, and the Texas Division of Emergency Management.

As indicated in the attachment, it is requested that your agency file the facility critical load status information confidentially due to its sensitive nature. If you have questions on any of this information, please contact Gary Chauvin at 512-972-0153 or [gary.chauvin@austintexas.gov](mailto:gary.chauvin@austintexas.gov).

Sincerely,

Greg Meszaros  
Director, Austin Water
