October 20, 2021

Public Utility Commission of Texas (PUCT)
PO Box 13326
Austin, Texas 78028

Dear PUCT:

Following the Utili-Facts Project 52299, Senate Bill 3, PUCT Compliance Guidance Document, below and attached I have provided the requested information to include:

- The location and a general description of our water/wastewater systems (below)
- Spreadsheet detailing the individual water/wastewater sites with critical load status that do not possess a backup generator.
- A map illustrating the location of these sites.

The City of Kerrville, Texas owns and operates a public water and wastewater system.

The water system ID number is 13300. Our related CCN number is 12928. We supply an average 3.4 MG of potable water to our customers daily. We have 2 surface water treatment plants on the Guadalupe River, 8 ground water wells and 2 aquifer storage and recovery (ASR) wells. The 2 ASR wells and 7 of the water wells are located in the lower Trinity aquifer. One of the ground water wells produces from the Ellenburger aquifer. We have approximately 250 miles of distribution piping in 17 pressure planes. There are 9 ground storage tanks, 5 booster stations and 4 hydro-pneumatic systems.

The wastewater system ID number is WQ0010576002. We collect and treat approximately 2.6 MG of wastewater from our customers per day. We have a tertiary treatment process and a discharge permit for 3rd Creek. The discharge is treated to EPA type 1 water and much is provided to irrigation customers as reuse water. The collection system consists of approximately 220 miles of piping mains and manholes, with 26 lift stations.

The City provides wholesale water serve to Kerrville Schreiner Park (2385 Bandera Hwy, Kerrville Texas, PWSID#1330021) and Cherokee MHP (1922 Thurman, PWSID#1330122). The City will write our EPP so as to provide water to these water systems.

Emergency contact information is as follows:

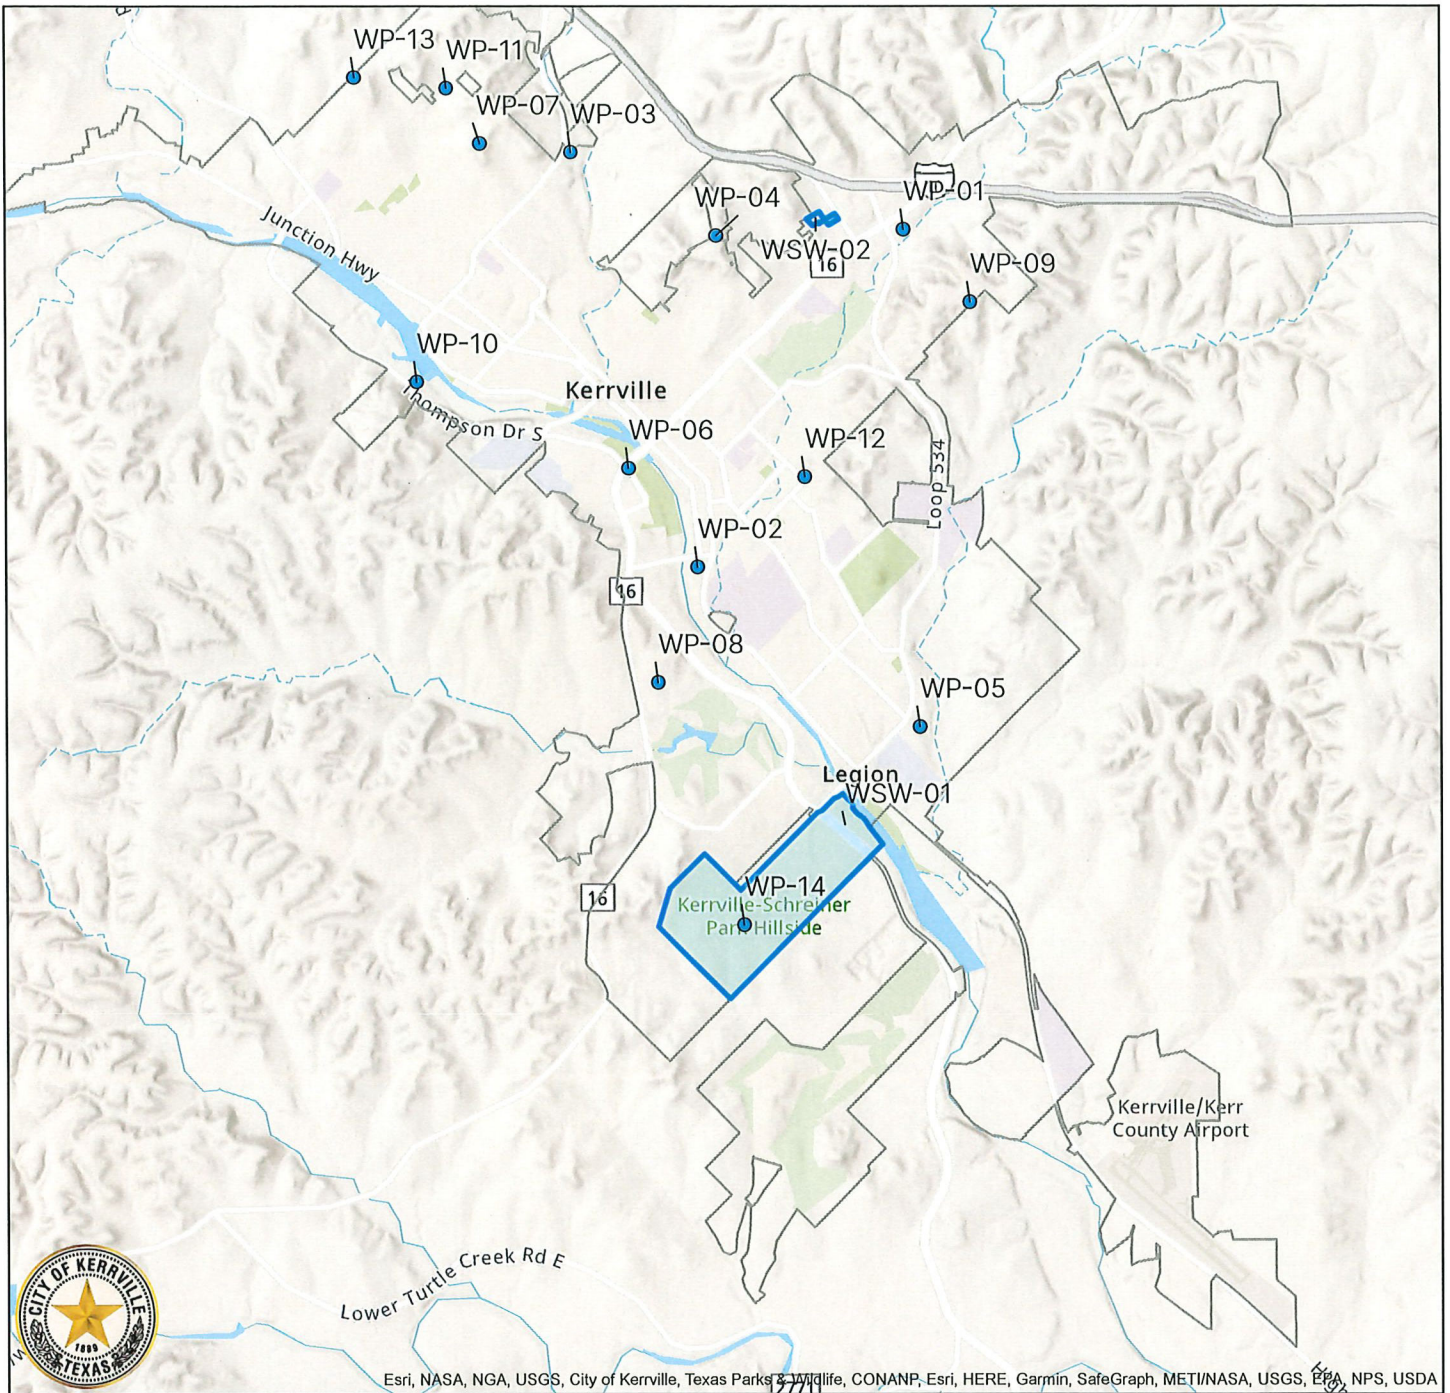

1. Stuart Barron, Director of Public Works, (830) 258-1230, 459-4881
2. Grant Terry, Water Production Superintendent, (830) 258-1235, 739-0551
3. Scott Loveland, Assistant Director of Public Works, (830) 258-1230, 377-1379
4. David Barrera, Assistant Director of Public Works, (830) 258-1223, 739-3881

Please contact me with any questions concerning this report.

Sincerely,

Scott Loveland
Assistant Director of Public Works
