City of Duncanville c/o Mathew Bryant

330 SHADY TRAIL DR

DUNCANVILLE, TX, 75137-3410

Re: Confirmation of Critical Load Customer Designation

Dear Mathew Bryant:

The electric service premise at 330 SHADY TRAIL DR 10443720001122142 is currently designated as a Critical Load Public Safety or Critical Load Industrial Customer as defined by the Public Utility Commission of Texas (PUCT) Substantive Rules 25.497(a) (1) "A customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewater facilities", or (2) "An industrial customer for whom an interruption or suspension of electric service will create a dangerous or life-threatening condition on the retail customer's premises, is a critical load industrial customer."

Designation of a critical load does not guarantee an uninterrupted supply of electricity. It is the responsibility of the Retail Customer to make arrangements for alternative sources of electric power should a localized outage or load shed event occur.

As provided in Sections 4.2.5, 5.2.5, and 5.3.7.1 of Oncor's Tariff for Retail Delivery Service, Oncor shall, if reasonably possible, provide notice to Critical Load Public Safety and Critical Load Industrial Customers when Oncor curtails, reduces voltage, or interrupts delivery service during an emergency or other necessary event. Your location will be enrolled in the My Oncor Alerts program using the email address provided in the application. Oncor uses this program to communicate these types of events to our customers.

Please let us know if you have any questions by replying to this email.

Sincerely,

Kris Jones
